

A MESSAGE TO OUR NEIGHBORS

March 10, 2023

Dear Neighbor:

Starting as early as March 20, 2023, and continuing for approximately one month, our contractor, Accumark, has been authorized to perform work on behalf of HRSD, your regional wastewater treatment utility, as part of the Larchmont Area Sanitary Sewer Improvements project. This project will replace, upgrade, and relocate sanitary sewer pump stations and their connecting pipelines in the Larchmont-Edgewater community.

Accumark will drill test bores on various streets within the neighborhood to determine the location of underground utilities. All this work will occur in the street (public right-of-way) and will not require access to your property. Additionally, it will not disrupt wastewater service to your property. There will be no road closures or detours that will affect traffic routes.

The attached map shows the general area in which the utility work will be completed. The colored boxes indicate which streets will be impacted, but the timing of the work will vary based on contractor progress, weather, and other variables. We estimate that the survey work will be completed by late April 2023.

If you have concerns about the presence or performance of any worker while accomplishing these duties on our behalf, you may contact me at 757-XXX-XXXX.

We appreciate your understanding and assistance as we work to improve our system and fulfill HRSD's vision: *Our communities will have clean waterways and reliable water resources for generations to come.*

Sincerely,

Name
HRSD Public Information Specialist

PO Box 5911, Virginia Beach, VA 23471-0911 • 757.460.2261

Our Promise: We promise to treat wastewater and recover natural resources to protect public health and the environment.
Our Vision: Our communities will have clean waterways and reliable water resources for generations to come.
