

HAMPTON ROADS SANITATION DISTRICT

ATLANTIC TREATMENT PLANT EXPANSION PROJECT

NOTICE OF WILLINGNESS TO HOLD A SECOND PUBLIC MEETING

HRSD will advertise for bids in the fall of 2006 to expand the Atlantic Treatment Plant, which is located at 645 Firefall Drive, Virginia Beach. This project will allow HRSD to meet existing and future wastewater treatment needs in a way that protects our environment and public health.

HRSD hosted a public meeting June 29, 2005, at Ocean Lakes High School to explain the project and receive public comments. The final design is near completion. If you wish to attend a second meeting to hear further discussion of the plans, please contact the HRSD Chief of Communications at 460-7056 by March 2, 2006. You also may call that number if you have questions or comments, or you may visit the Project Updates folder of HRSD's Web site (www.hrsd.com) to learn more about the project.
