HRSD Director of Water Quality Named to Environmental Leadership Posts

Guy M. Aydlett, HRSD director of water quality, has been named chair of the pretreatment and hazardous waste committee of the national Association of Metropolitan Sewerage Agencies. On the state level, Aydlett has been elected vice president of the Virginia Association of Municipal Wastewater Agencies. Locally, he has been re-elected to the board of directors of the Elizabeth River Project. As director of water quality, Aydlett represents HRSD on numerous national, state and local committees involving environmental legislation, pretreatment policy and control of industrial and hazardous wastes.

HRSD, a political subdivision of the Commonwealth of Virginia, was created by public referendum in 1940 and currently serves 1.5 million people in 17 cities and counties. Our mission is to prevent pollution, protect public health and support community development by providing wastewater collection, treatment and related services.
