

The Tabb Pressure Reducing Station and Offline Storage Facility Project will construct new pressure reducing and flow equalization facilities that will provide influent flow management at the James River Treatment Plant (JRTP), York River Treatment Plant (YRTP) as well as improvements in the interceptor system.

HRSD Capital Improvement Project: YR010900 - Tabb PRS and OLSF

HRSD is looking to engage well-qualified partners to deliver a pressure reducing station and offline storage facility in Yorktown, Virginia. The project will include a 70'x130' pressure reducing station, 2.25MG Prestressed Concrete tank, utility work, and associated sitework. The current greenfield is located behind Tabb High School along Victory Boulevard.

Please join us on August 17, 2023 at 11:00 a.m. Eastern to learn more about this opportunity.
