Solicitation No. 404540

PROJECT: Nansemond Treatment Plant Land Acquisition - Land Stabilization (NP013500) and Nansemond Treatment Plant Land Acquisition - Structure Demolition (NP013600) - Rebid

LOCATION: Suffolk, Virginia

ENGINEER: Kimley-Horn and Associates, Inc., 4525 Main Street, Suite 100, Virginia Beach, Virginia 23462 and Tetra Tech, Inc., 5700 Lake Wright Drive, Suite 102, Norfolk, Virginia 23502.

The Hampton Roads Sanitation District ("HRSD" and/or "OWNER") will receive electronic Bids for the above described project via HRSD’s Online Oracle ERP system (https://www.hrsd.com/engineering-task-submittals) until 2:00 p.m., local time on March 3, 2020. Failure to submit a Bid through HRSD’s Online Oracle ERP system prior to the due date and time will be cause for rejection by HRSD.

Procedures for submitting a Bid, claiming an error, withdrawing of Bids and other pertinent information are contained in the Instructions to Bidders. HRSD reserves the right to reject any or all Bids, waive any informalities, or negotiate with the low bidder as described in the Instructions to Bidders.

Bid Documents may be viewed by logging into HRSD’s Online Oracle ERP system through the ERP iSupplier login at the website address listed above. All bidders must be registered in advance of submitting a bid. Technical questions should be submitted through the online discussion tool available via HRSD’s Online Oracle ERP system. How-To Guides are available at the bottom of the webpage link above to assist with navigating the HRSD online system. Additional questions related to submitting a bid or using the online system should be directed to the ERP HelpDesk at erphelp@hrsd.com or 757-460-7318 or email Rebecca Ashley at rashley@hrsd.com.

CONTRACTOR registration in accordance with Title 2.2, Chapter 43 and Title 54.1, Chapter 11, Code of Virginia is required.

The project site is located at HRSD’s Nansemond Treatment Plant at 6909 Armstead Road in Suffolk, Virginia. The project consists of a 2,680-foot access road connecting at Armstead Road and extending to the shoreline and the use of Level II Dry Swales for storm water management. The project involves stabilizing approximately 1,000 linear feet of eroding bank with rip rap, as well as stabilizing banks with rip rap near the influent force main (IFM). Improvements at the IFM also include minor repairs to the force main piping and removing the existing bridge and culvert. The project consists of the complete demolition of 16 former military buildings and proper disposal or recycling of all contents including: building demolition; removal and lawful disposal of building contents and demolition debris; removal of 5 known stone/brick lined septic tanks; backfilling of excavated building footprints with clean fill; finish grading to existing grades;
and any other tasks required to fully complete the project. Additional items for removal during demolition are: 3 fire hydrants, 30 to 40 cubic yards of general debris, 5 drain inlets, and lead soils associated with 4 of the buildings.

A pre-bid conference was previously held during the initial advertisement for bids (Solicitation 404403) on October 16, 2019. See Appendix J in Volume I for documentation from this meeting. A pre-bid conference will not be held for this current solicitation. Parties interested in a site visit shall refer to Article 5 of the Instructions to Bidders.

A Bid Bond in the amount of five percent (5%) of the Bid shall be submitted electronically with each Bid.
