

Attachment 12-C

- FIRM should clearly include / identify at a minimum:
- Dewatering area.
 - Dewatering drawdown area (cone of depression).
 - Locations of settlement monuments/monitors.
 - Locations of boring samples.
 - Variations in soil types (if applicable)
 - Limits of disturbance in each area of soil variation.
 - Highlight any structures of concern & add to list of recommended settlement monitors.
 - Time planned for dewatering activities (by months).
