## **Norchester Pump Station Odor System Maintenance**

### **- SITE MAINTENANCE -**

This week HRSD staff will replace the existing odor control filter located within the tank on the side of the pump station. This new filter will help the system run at an optimal level.

#### **WHAT YOU NEED TO KNOW:**

- You may notice crews and heavy equipment along Norchester Avenue and W. Norchester Mews during this effort, which may delay traffic.
- Please leave room for this equipment by not parking directly adjacent to the pump station.
- This work is anticipated to begin on Wednesday and should take a few days to complete. This work is situation and weather dependent.

HRSD would like to thank all the residents for their continued understanding and patience as we continue to make improvements to our system.

HRSD's vision:

***Future generations will inherit clean waterways and  
are able to keep them clean.***
