

## CONSTRUCTION NOTICE For Newport News August 2017

### Neighborhoods Surrounding Warwick and Boxley Boulevards, Menchville and Scufflefield Roads and Riverview Parkway Projects

#### -Project Closeout Notification-

The contractor for HRSD, your regional wastewater treatment utility, has successfully completed the pipeline installation work related to the sewer pipeline replacement projects in your surrounding area. The remaining landscape restorations will take place in the fall when the weather is more conducive to successful plantings.

As the newly installed pipeline is now in service, HRSD will fill the old pipeline with cementitious like material and will safely leave it in place to minimize additional disruptions to the public. The contractor may need to access a few locations along existing easements to inspect the pipe and perform this work and will attempt to coordinate with those homeowners. This work will begin later this week and should be completed within two weeks.

HRSD maintains a one-year warranty period with the contractor to review items that may need to be addressed after final restoration. If you have any areas of concern, please let us know so these items may be addressed through this process.

**HRSD would like to thank you for your understanding and patience** during this important effort to help achieve HRSD's vision:

*Future generations will inherit clean waterways and are able to keep them clean.*
