CONSTRUCTION NOTIFICATION UPDATE #2
April/May 2017

Cleaning wastewater every day for a better Bay.

Kecoughtan Road Sanitary Sewer Pipeline Replacement Construction

-- Phase 1 work nears completion --

HRSD, your regional wastewater treatment utility, continues work on a project to replace approximately 1,000 linear feet of sanitary sewer pipeline located along Kecoughtan Road from Ivy Home Road heading south towards Clyde Street. This work is to take place primarily between the hours of **7 a.m. to 5 p.m**., **Monday through Saturday.** This work can be weather and situation dependent and should not affect your water or sewer services.

In the coming weeks, the contractor will **complete Phase 1** of this project -the installation of the sanitary sewer gravity pipeline within Kecoughtan Road. **The insertion of the large manhole near the shopping centers' signaled intersection is scheduled for May 1-2.**
The equipment will be removed from the center median and the contractor will place a temporary paving patch, which will remain in place until completion of the project. The contractor will return to various areas along the project path to connect and activate the new pipeline.
Phase 2 work will begin near the strip mall and New England Community Center at the Ivy Home Road intersection towards the end of May.

While our contractor and project team works diligently to minimize impacts you may experience typical construction noises such as equipment engines and back-up alarms, materials being delivered, diesel generators and air compressors, sawing and the like should be anticipated.

Please visit the HRSD website, www.hrsd.com, for updated project information. Look for the Construction Status link. Click on Hampton and then the Kecoughtan Road Sanitary Sewer Pipeline Replacement link.
