

# CONSTRUCTION NOTIFICATION

Cleaning wastewater every day for a better Bay.

## **Downtown Norfolk Sanitary Sewer Pipeline Replacement Construction**

-- Weekend Construction Work --

HRSD, your regional wastewater treatment utility, continues work on a major project to replace a sanitary sewer pipeline located along Saint Paul's Boulevard. This work is to take place primarily between the hours of **7 a.m. to 8 p.m.**, **Saturday and Sunday**, although night hours may be required, to minimize construction time as requested by the City of Norfolk.

**During the July 23 and 24 weekend, pipe installation work is scheduled to take place across the southbound lanes of Saint Paul's Boulevard. The southbound travel lanes will be closed from Main Street to Waterside Drive. A detour will be in place to reroute southbound traffic around the work. Once the pipe work has been completed, temporary pavement will be placed over the pipe trench to allow traffic to resume Monday morning, July 25. This work should not affect your water or sewer services and can be weather and situation dependent.**

While our contractor and project team works diligently to minimize impacts, you may notice the lights required for safety during night time construction, and heavy equipment (with back-up safety alarms) and noise associated with construction.

Please visit the HRSD website, [www.hrsd.com](http://www.hrsd.com), for updated project information. Look for the Construction Status link. Click on Norfolk and then the Downtown Norfolk Sanitary Sewer Pipeline Replacement link.
