Hampton Roads Sanitation District Commission Virginia Beach, Virginia

#### Dear Commissioners:

Political subdivisions of the Commonwealth of Virginia are required to publish a complete set of audited financial statements. This report fulfills that requirement for the fiscal year ended June 30, 2019.

Hampton Roads Sanitation District's (HRSD's) management assumes full responsibility for the completeness and reliability of information contained in this report, based on a comprehensive framework of internal control it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements.

Cherry Bekaert LLP, Certified Public Accountants, has issued an unmodified ("clean") opinion on HRSD's financial statements for the year ended June 30, 2019. The independent auditors' report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A, which complements this letter of transmittal, should be read in conjunction with it.

#### PROFILE OF HRSD

HRSD is an independent political subdivision of the Commonwealth of Virginia (the Commonwealth) created by referendum on November 5, 1940. HRSD was established to abate water pollution in the Hampton Roads area by providing a system of interceptor mains and wastewater treatment plants.

Approximately 1.7 million individuals, more than one-fifth of Virginia's population, reside in HRSD's service area, which is located in the southeastern corner of the Commonwealth. HRSD's territory of approximately 3,100 square miles encompasses nine cities, nine counties and several large military facilities. A brief history of HRSD is provided on page 8. HRSD is required by its enabling act to meet its obligations by charging user fees for its wastewater treatment services; no taxing authority is authorized by the enabling act. Currently, HRSD provides service and bills to approximately 476,000 service connections.

A board of eight commissioners (the Commission), appointed by the Governor of Virginia, governs HRSD. Commission members, who serve four-year staggered terms, can be reappointed without limitation and may be suspended or removed by the Governor at his pleasure. The Commission appoints a General Manager, who appoints the senior staff.

HRSD owns and operates 16 treatment plants. The nine major plants in Hampton Roads have design capacities ranging in size from 15 to 54 million gallons per day (MGD). Five of the major plants are located south of the James River and four are north of the James River (see map on page 7). The combined capacity of these nine plants is approximately 249 MGD. HRSD's seven small rural treatment plants have a combined capacity of one MGD.

HRSD maintains 541 miles of pipelines ranging from six inches to 66 inches in diameter. Interceptor pipelines, along with 87 pump stations in Hampton Roads, interconnect into two independent systems, one south of the James River and one north of the James River. The system allows some flow diversions to provide for maintenance or emergency work. HRSD owns and maintains 41 pump stations in the Small Communities.

#### LOCAL ECONOMY

HRSD's service area includes nearly all of the Virginia Beach-Norfolk-Newport News Metropolitan Statistical Area (MSA). It is the ninth largest MSA in the southeastern United States and the thirty-seventh largest in the nation. Unlike many metropolitan areas, Hampton Roads' population nucleus is not confined to one central city. Instead, the approximately 1.7 million residents are spread among several cities and counties. Virginia Beach is the most populous city in the Commonwealth, with Norfolk and Chesapeake second and third, respectively. Suffolk is the largest city by land area. Unemployment rates remain below national averages in the region, which has a civilian labor force of 859,200 as of June 2019.

The regional economy is supported by one of the highest military concentrations in the nation, diverse manufacturing and service sectors, shipbuilding and repair work, international port activities and tourism. Several state and private colleges and a large healthcare infrastructure also lend stability to the region.

A diverse customer base allows HRSD to maintain stable revenues. The ten largest customers account for only 10.2 percent of wastewater revenues for fiscal year 2019. In addition, HRSD's 2019 revenues contained only limited reliance (2.1 percent) on new customer connections.

#### LONG-TERM FINANCIAL PLANNING

HRSD's Financial Policy helps it maintain its solid fiscal health. Budgetary principles include using ongoing revenues to pay for ongoing expenses, and establishing annual cash contribution goals of at least 15 percent of budgeted capital costs. Under the Financial Policy, senior debt service coverage and total adjusted debt service coverage ratios should not be less than 1.5 and 1.4 times annual debt service, respectively with a goal of maintaining 2.0. Operating and ten-year capital improvement budgets are adopted annually. Included in the operating budget is a long-range financial forecast, which is guided by projections of operating and capital needs and the aforementioned Financial Policy requirements.

#### **MAJOR INITIATIVES**

HRSD continues its ambitious \$2.8 billion, ten-year Capital Improvement Program. Regulatory requirements to reduce nutrient discharges, initiatives to ensure appropriate wet weather capacity exists within the regional sanitary sewer system, major plant upgrades and replacements of interceptor pipelines drive the capital program. Major projects are currently under construction at the Army Base Treatment Plant and the Virginia Initiative Plant.

To minimize the impacts of its capital investments on ratepayers, HRSD continues to pursue grant opportunities when available. In 2019, HRSD received approximately \$2.8 million in grant reimbursements and other capital contributions for improvements to several of its treatment plants.

#### AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to HRSD for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2018. This was the 36th consecutive year that HRSD has received this prestigious award. In order to be awarded a Certificate of Achievement, HRSD must publish an easily readable and efficiently organized CAFR that satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this CAFR was made possible by the dedicated service of the entire Department of Finance staff. All members of the department have our sincere appreciation for their contributions to the preparation of this report. Credit must also be given to the Commission for their support for maintaining the highest standard of professionalism in the management of HRSD's finances.

Respectfully submitted,

Edward Henifin, P.E. General Manager

Jay A. Bernas, P.E. Director of Finance

Juy 1 Benus

# History of HRSD

June 30, 2019

HRSD can trace its beginnings to 1925 when the Virginia Department of Health condemned a large oyster producing area in Hampton Roads. The closure resulted in the Virginia General Assembly creating in 1927 a "Commission to Investigate and Survey the Seafood Industry of Virginia." Other studies recommended a public body to construct and operate a sewage system in the area. HRSD was named after Hampton Roads, a ship anchorage used for five centuries located near the convergence of the James, Elizabeth and Nansemond Rivers, before they flow into the Chesapeake Bay in southeastern Virginia.

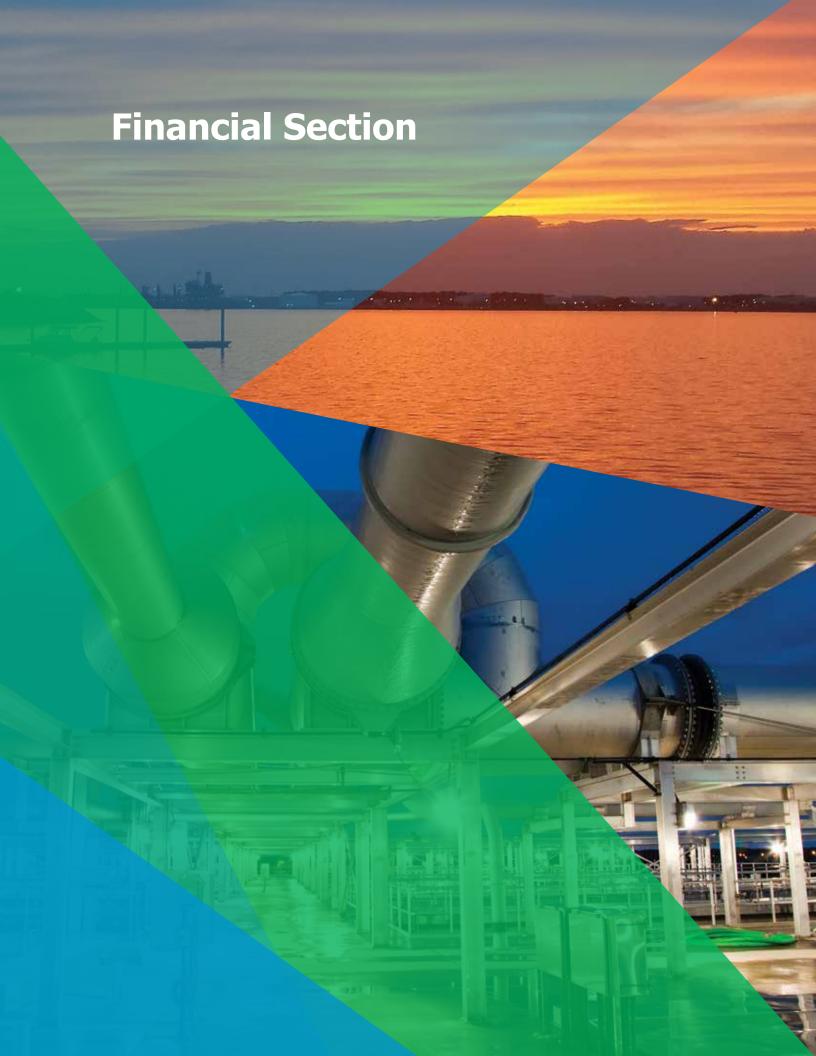

In 1934, the Virginia General Assembly created the Hampton Roads Sanitation Disposal Commission with instructions to plan the elimination of pollution in Hampton Roads. Recommendations were made to the General Assembly, which resulted in the Sanitary Districts Law of 1938, along with "an Act to provide for and create the Hampton Roads Sanitation District." This Act required the qualified voters within HRSD to decide in a general election on November 8, 1938, if they favored creation of such a District. This referendum failed to gain a majority by about 500 votes out of nearly 20,000 votes cast. This led to a revision of the Act and another referendum was held on November 5, 1940, which resulted in a majority vote for the creation of the Hampton Roads Sanitation District.

The Enabling Act provides for HRSD to operate as a political subdivision of the Commonwealth of Virginia for the specific purpose of water pollution abatement in Hampton Roads by providing a system of interceptor mains and wastewater treatment plants. Its affairs are controlled by a Commission of eight members appointed by the Governor for four-year terms. Administration is under the direction of a General Manager, supported by department directors and their staffs.

HRSD began operations on July 1, 1946, using facilities acquired from the United States Government. The Warwick County Trunk Sewer, HRSD's first construction project, began on June 26, 1946, and was funded by HRSD's \$6.5 million Primary Pledge Sewer Revenue Bonds, dated March 1, 1946. The first treatment plant, the Army Base Plant, began operation on October 14, 1947. Since that time, the facilities of HRSD have grown to provide sanitary sewer service to all major population centers in southeastern Virginia. The population served has increased from nearly 288,000 in 1940 to about 1.7 million in 2019.

Throughout its rich history HRSD has earned many of its industry's most prestigious awards. This tradition continued as the National Association of Clean Water Agencies (NACWA) presented Peak Performance Awards for outstanding compliance with National Pollutant Discharge Elimination System (NPDES) permits to every HRSD treatment plant during the year ended June 30, 2019. The major treatment plants received the following awards in recognition of their outstanding permit compliance status: Atlantic—Gold, Boat Harbor—Platinum (17 consecutive years), Chesapeake-Elizabeth—Gold, James River—Platinum, Nansemond—Platinum (17 consecutive years), Virginia Initiative Plant—Platinum (23 consecutive years), Williamsburg—Platinum (24 consecutive years) and York River—Platinum (11 consecutive years). Four treatment plants in the Small Communities Division, Central Middlesex, King William Urbanna and West Point, earned Silver Awards while Lawnes Point and Surry received Gold Awards.

Additional awards and honors received during the year ended June 30, 2019 include NACWA National Achievement Awards in the categories of Workforce Development, and Operations and Environmental Performance. The SWIFT Research Center was named best project in the Water/Environment category from the Engineering News Record Mid-Atlantic Region. Honors and Awards received include NACWA National Achievement Awards in the following categories: Public Information and Education: E-Media; Operations and Environmental Performance; Workforce Development, and Research and Technology. The SWIFT Research Center also earned the 2019 Governor's Environmental Excellence Award, Gold Medal winner in the environmental project category.

#### **Report of Independent Auditor**

The Commissioners Hampton Roads Sanitation District

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Hampton Roads Sanitation District (hereafter referred to as "HRSD"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise HRSD's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of HRSD, as of June 30, 2019, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

#### Prior Period Financial Statements

The financial statements of HRSD, as of and for the year ended June 30, 2018, were audited by other auditors whose report, dated November 27, 2018, expressed an unmodified opinion on those statements.

#### Change in Accounting Principle

As described in Note 14 to the financial statements, HRSD adopted new accounting guidance, Governmental Accounting Standards Board ("GASB") Statement No. 89, *Accounting for Interest Costs Incurred before the End of a Construction Period*, effective July 1, 2018. Our opinion is not modified with respect to this matter.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the HRSD's basic financial statements. The Introductory, Other Supplemental, and Statistical Sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Other Supplemental Section is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Other Supplemental Section is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Virginia Beach, Virginia November 22, 2019

Therey Bekaut LLP

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

This narrative overview and analysis of the financial activities of the Hampton Roads Sanitation District (HRSD) for the fiscal years ended June 30, 2019 and 2018, is provided by HRSD's management. Readers of the accompanying financial statements are encouraged to consider this information in conjunction with that furnished in the letter of transmittal, which can be found on pages 1 through 3 of this report.

#### **FINANCIAL HIGHLIGHTS**

- Total net position increased \$84.1 million, or 12.1 percent, in 2019 as a result of this year's operations.
- Total revenues increased \$30.5 million, or 10.5 percent. This increase is primarily attributable to wastewater revenue rate increases and higher investment income.
- Operating expenses increased \$1.7 million, or 0.8 percent, principally due to a \$2.0 million increase in contractual services and a \$1.3 million increase in major repairs. This was partially offset by \$1.6 million decline in retirement expenses from the annual VRS reconciliation.
- Non-operating expenses increased \$6.4 million, or 29.7 percent, primarily due to HRSD adopting GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, effective July 1, 2018. This Statement establishes accounting requirements to expense interest cost incurred before the end of a construction period. Interest expense of \$7.6 million was capitalized in 2018, but no interest was capitalized in 2019. The impact was partially offset by a \$1.0 million reduction in bond issuance costs since no new revenue bonds were issued in 2019.
- HRSD received \$2.8 million in capital grants and contributions in 2019, including \$2.4 million from the Commonwealth of Virginia, to help finance its capital improvement program.
- Restricted cash and cash equivalents decreased \$52.2 million, or 54.9 percent, primarily due to capital
  construction activity. Unrestricted cash and cash equivalents and investments increased \$93.8 million, or
  49.3 percent, primarily due to utilizing bond proceeds instead of cash to fund capital construction.
- Net Property, Plant and Equipment increased \$36.7 million, or 2.8 percent, primarily due to expansion of treatment plants and interceptor systems.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

HRSD's Basic Financial Statements are comprised of the financial statements and the notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the Basic Financial Statements.

The Basic Financial Statements, found on pages 16 through 19 of this report, are designed to provide readers with a broad overview of HRSD's finances in a manner similar to a private sector business.

The Statements of Net Position, found on pages 16 and 17 of this report, present information on all of HRSD's assets, deferred outflows of resources, liabilities, and deferred inflows of resources; the difference between these components is reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of HRSD is improving or deteriorating.

The Statements of Revenues, Expenses and Changes in Net Position, found on page 18 of this report, present all of HRSD's revenues and expenses, showing how HRSD's net position changed during the year. All changes in net position are reported as soon as the underlying event takes place, thus giving rise to the changes, regardless of the timing of the cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

The Notes to Financial Statements, found on pages 20 through 52 of this report, provide additional information that is essential to a full understanding of the data provided in the financial statements.

In addition to the basic financial statements and the related notes, this report also presents certain required supplementary information concerning HRSD's progress in funding its obligations to provide pension and other postemployment benefits to its employees.

Required Supplementary Information can be found beginning on page 53 of this report.

#### FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of HRSD's financial position. Assets exceeded liabilities by \$781.7 million at June 30, 2019 and by \$697.6 million at June 30, 2018.

By far, the largest portion of HRSD's net position (62.7 percent and 73.4 percent at June 30, 2019 and 2018, respectively) reflects its net investment in capital assets (e.g. land, buildings, machinery and equipment) less any related debt used to acquire those assets still outstanding, net of unspent bond proceeds. HRSD uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending. Although HRSD's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, because the capital assets themselves cannot be liquidated to reduce these liabilities.

HRSD's net position is summarized in the following condensed Statements of Net Position as of June 30:

#### **HRSD's Condensed Statements of Net Position**

				2019 vs.	2018
(in thousands)	2019	2018	2017	Dollars	Percent
Capital assets	\$ 1,358,327	\$ 1,321,644	\$ 1,255,952	\$ 36,683	2.8%
Current assets and noncurrent assets	 399,840	357,699	310,534	42,141	11.8%
Total assets	\$ 1,758,167	\$ 1,679,343	\$ 1,566,486	\$ 78,824	4.7%
Deferred outflows of resources	21,442	20,762	30,822	680	3.3%
Long-term liabilities	\$ 847,928	\$ 850,928	\$ 805,685	\$ (3,000)	-0.4%
Current liabilities	140,564	139,914	134,353	650	0.5%
Total liabilities	\$ 988,492	\$ 990,842	\$ 940,038	\$ (2,350)	-0.2%
Deferred inflows of resources	9,412	11,634	2,992	(2,222)	-19.1%
Net investment in capital assets	\$ 494,779	\$ 512,398	\$ 428,670	\$ (17,619)	-3.4%
Restricted for debt service	28,553	27,799	22,701	754	2.7%
Unrestricted	258,373	157,432	202,907	100,941	64.1%
Total net position	\$ 781,705	\$ 697,629	\$ 654,278	\$ 84,076	12.1%

At June 30, 2019 and 2018 HRSD retained \$14.3 million and \$67.3 million, respectively, of unspent bond proceeds. The increase in capital assets and the corresponding changes in current assets and noncurrent investments from 2017 through 2019 are primarily the result of issuing bonds in 2017 and 2018 and using these proceeds to fund capital improvements.

The changes in HRSD's net position can be determined by reviewing the following condensed Statements of Revenues, Expenses and Changes in Net Position:

HRSD's Condensed Statements of Revenues, Expenses and Changes in Net Position

					2019 vs. 2		2018	
(in thousands)	2019	2018		2017		Dollars	Percent	
Operating revenues	\$ 303,121	\$ 279,043	\$	258,630	\$	24,078	8.6%	
Facility charge revenues	6,662	6,673		7,511		(11)	-0.2%	
Investment income, net	8,719	2,272		1,168		6,447	283.8%	
Bond interest subsidy	2,308	2,330		2,275		(22)	-0.9%	
Total revenues	320,810	290,318		269,584		30,492	10.5%	
Operating expenses:								
Wastewater treatment	117,189	116,982		113,100		207	0.2%	
General and administrative	41,121	40,480		40,287		641	1.6%	
Depreciation and amortization	53,225	52,349		49,311		876	1.7%	
Total operating expenses	 211,535	209,811		202,698		1,724	0.8%	
Non-operating expenses:								
Bond issuance costs	53	1,061		42		(1,008)	-95.0%	
Capital distributions to localities	-	311		138		(311)	-100.0%	
Interest expense	27,964	20,226		22,630		7,738	38.3%	
Total non-operating expenses	28,017	21,598		22,810		6,419	29.7%	
Total expenses	239,552	231,409		225,508		8,143	3.5%	
Income before capital contributions	81,258	58,909		44,076		22,349	37.9%	
Capital contributions	2,818	4,626		8,598		(1,808)	-39.1%	
Change in net position	 84,076	63,535		52,674		20,541	32.3%	
Total net position - beginning, as restated	697,629	634,094		601,604		63,535	10.0%	
Total net position - ending	\$ 781,705	\$ 697,629	\$	654,278	\$	84,076	12.1%	

Operating revenues increased 8.6 percent in 2019 and 7.9 percent in 2018. The majority of these increases are attributable to various rate increases in metered public wastewater services. Net investment income increased \$6.4 million in 2019, or 283.8 percent, primarily due to higher interest rates and better investment returns on higher cash and investment balances, compared to a \$1.1 million increase, or 94.5 percent, in 2018.

Operating expenses increased 0.8 percent in 2019 and 3.5 percent in 2018. Increases in 2019 were principally due a \$2.0 million increase in contractual services and a \$1.3 million increase in major repairs, which was partially offset by \$1.6 million decline in retirement expenses from the annual VRS reconciliation. Increases in 2018 were principally due to a \$3.1 million increase in contractual services, a \$3.5 million increase in healthcare expense and a \$3.0 million increase in depreciation expense.

In 2019 and 2018, HRSD received \$2.8 million and \$4.6 million, respectively, in capital grants and contributions to help finance its capital improvement program.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### **Capital Assets**

At the end of 2019 and 2018 HRSD had approximately \$1.4 billion and \$1.3 billion, respectively, invested in a broad range of capital assets, including land, wastewater treatment plants, interceptor mains, pump stations, administrative and maintenance buildings, equipment and software. These amounts represent a net increase of \$36.7 million, or 2.8 percent, in 2019 and \$65.7 million, or 5.2 percent, in 2018.

The following summarizes HRSD's capital assets, net of accumulated depreciation, as of June 30:

#### **HRSD's Capital Assets**

(in thousands)	2019	2018	2017
Land	\$ 12,174	\$ 12,174	\$ 12,174
Treatment plants	549,645	572,942	543,616
Interceptor systems	440,236	442,376	368,665
Buildings	29,617	31,186	32,354
Small community facilities	17,222	17,718	18,288
Office equipment	1,513	2,555	3,774
Automotive	1,941	2,092	2,070
Other equipment	6,007	8,171	10,345
Software and intangible assets	 5,441	10,147	16,617
	1,063,796	1,099,361	1,007,903
Construction in progress	294,531	222,283	248,049
Net property, plant and equipment	\$ 1,358,327	\$ 1,321,644	\$ 1,255,952

The following summarizes the changes in capital assets for the years ended June 30:

(in thousands)	2019	2018	2017
Balance at beginning of year	\$ 1,321,644	\$ 1,255,952	\$ 1,200,404
Additions	17,661	143,807	47,631
Retirements	(1,050)	-	-
Depreciation and amortization	(53,226)	(52,349)	(49,311)
Accumulated depreciation retired	1,050	-	-
Net increase (decrease) in construction in progress	72,248	(25,766)	57,228
Balance at end of year	\$ 1,358,327	\$ 1,321,644	\$ 1,255,952

The largest increase in capital assets in the past two years has been in treatment plant construction and interceptor system construction, which includes pipeline replacements, pump station rehabilitations and other improvements to the infrastructure. During 2019, HRSD invested significant funds in improvements to the Atlantic and Virginia Initiative treatment plants, the Atlantic and Chesapeake-Elizabeth interceptor systems, and the SWIFT program planning and development. During 2018, HRSD invested significant funds in improvements to the York River treatment plant, the Boat Harbor, James River, and Virginia Initiative interceptor systems, and the SWIFT Research Center. HRSD's total capital expenses were \$95.7 million during 2019 and \$127.7 million during 2018.

#### Long-Term Debt

At June 30, 2019, HRSD had a total of \$891.6 million in revenue bonds outstanding versus \$891.4 million in 2018, less than a 0.1 percent net increase. New subordinate wastewater revenue bonds, and draws on existing approved bonds, in the amount of \$35.0 million, were partially offset by payments on and refunds of existing senior and subordinate debt and amortization of bond premiums.

The following summarizes HRSD's outstanding debt principal at June 30:

#### **HRSD's Outstanding Debt**

(in thousands, net of premium)	2019	2018	2017
Senior revenue bonds	\$ 313,340	\$ 332,141	\$ 429,165
Subordinate revenue bonds	512,168	485,468	350,346
Total outstanding debt	\$ 825,508	\$ 817,609	\$ 779,511

HRSD's financial strengths are reflected in its high credit ratings. In March 2018, HRSD was upgraded one notch by Moody's Investors Service:

Ratings Agency	Senior Debt	Subordinate Long-term	Subordinate Short-term
Standard & Poor's	AA+	AA	A-1+
Fitch Ratings	AA+	AA	F1+
Moody's Investors Service	Aa1	Aa2	n/a

The development of HRSD's Capital Improvement Program and its related debt programs are governed by revenue Trust Agreements. The Senior Trust agreement requires the senior debt coverage to be 1.2 times maximum annual debt service and total debt service coverage of 1.0 times maximum annual debt service, both on a Generally Accepted Accounting Principles (GAAP) basis. The Amended and Subordinate Trust agreement was amended in 2016 to account for future Consent Decree expenses related to Locality wet weather improvements that HRSD will not own. In the Amended Trust, Operating Expenses were redefined as shown below for the purposes of calculating an "Adjusted" debt service coverage on a cash basis:

"Operating Expenses" as defined by the Enabling Act and as used in the Senior Trust Agreement, operating expenses includes the cost of maintaining, repairing and operating such system or systems or sewer improvements and to provide such reserves therefor as may be provided in the resolution providing for the issuance or such revenue bonds or in the trust agreement securing the same. As defined in the Subordinate Trust Agreement, Operating Expenses includes those expenses required to pay the cost of maintaining, repairing and operating the Wastewater System, including, but not limited to, reasonable and necessary usual expenses of administration, operation, maintenance and repair, costs for billing and collecting the rates, fees and other charges for the use of or the services furnished by the Wastewater

System, insurance premiums, credit enhancement and liquidity support fees, legal, engineering, auditing and financial advisory expenses, expenses and compensation of the Trustee, and deposits into a self-insurance program. Operating Expenses shall exclude allowance for depreciation and amortization and expenditures for extraordinary maintenance or repair or improvements. Operating Expenses shall also exclude expenses for improvements that will not be owned by HRSD but which will, in the reasonable determination of the Commission, as evidenced by a resolution thereof, maintain or improve the integrity of the Wastewater System.

The Amended and Subordinate Trust agreement requires total debt service coverage to be 1.2 times current year debt service on an Adjusted basis. HRSD's Financial Policy and operating and capital improvement plans were developed with the intent to maintain coverage ratios in excess of these requirements. HRSD's Financial Policy requires senior debt service coverage to be 1.5 times and total debt service coverage to be 1.4 times.

	Senior Debt Se	rvice Coverage	Total Debt Ser	vice Coverage	
	GAAP	Adjusted	GAAP	Adjusted	
Senior Trust Agreement	1.20x (MADS)	None	1.00x (MADS)	None	
Amended Subordinate Trust Agreement	None	None	None	1.20x (Current Year)	
Financial Policy	None	1.50x (Current Year)	None	1.40x (Current Year)	

More detailed information regarding HRSD's capital assets and long-term debt is presented in Notes 5 and 9, respectively.

#### **ECONOMIC FACTORS AND RATES**

The five-year rolling average billed consumption has decreased over the last three fiscal years from approximately 113 million gallons per day (MGD) to approximately 111 MGD. HRSD's experience, primarily resulting from water conservation efforts throughout the region, is consistent with national trends.

In 2019, wastewater revenues increased as a result of planned rate increases needed, in large part, to fund HRSD's capital improvement program. Facility charge revenues decreased \$11,000, or 0.2 percent, in 2019 and \$0.8 million, or 11.2 percent, in 2018, due to a decrease in new construction activity across the region. Facility charge revenues comprised only 2.1 and 2.3 percent of HRSD's total revenues in 2019 and 2018, respectively.

Wastewater treatment rates for the 2019 fiscal year were increased by approximately 9 percent at the beginning of the year for the vast majority of HRSD customers. The increases are necessary to meet growing capital improvement needs and the increased cost of treatment operations.

It is anticipated that the average residential customer bill will rise by less than 10 cents per day in fiscal year 2020.

#### **CONTACTING HRSD'S FINANCIAL MANAGEMENT**

This financial report is designed to provide a general overview of HRSD's finances for all those with an interest. Questions concerning the information provided in this report or any requests for additional information should be addressed to the Director of Finance, 1434 Air Rail Avenue, Virginia Beach, Virginia 23455.

#### HAMPTON ROADS SANITATION DISTRICT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 and 2018

#### **NOTE 1 - GENERAL INFORMATION**

#### Organization and Administration

The Hampton Roads Sanitation District (HRSD) was created by the Virginia General Assembly in 1940, as a political subdivision of the Commonwealth of Virginia (the Commonwealth), to construct, maintain, and operate a wastewater treatment system in the Hampton Roads area. The Hampton Roads Sanitation District Commission (the Commission) is HRSD's governing body and consists of eight members, appointed by the Governor. The Commission's functions were updated by Chapter 66 of the Acts of the Assembly of Virginia of 1960, as amended. The administration of HRSD is under the direction of a General Manager, supported by seven department directors.

#### Regulatory Oversight

HRSD's operations are subject to regulations established by the United States Environmental Protection Agency and the Virginia Department of Environmental Quality. HRSD currently meets all of its permit requirements. Changes in these regulations could require HRSD to modify its treatment processes and require additional capital investment and/ or incur additional costs.

#### Purpose of HRSD

HRSD was created for the specific purpose of abating pollution in the Hampton Roads area through the interception of wastewater outfalls, installation of interception service into new areas as necessary and providing treatment facilities. HRSD provides points of interception throughout the region. The responsibility of providing lateral sewers and subtrunk facilities to carry sewage from industries, residences and businesses is generally the responsibility of the local municipal governments.

#### Corporate Limits of HRSD

The geographical limits of HRSD include:

City of Chesapeake City of Suffolk King and Queen County City of Hampton City of Virginia Beach King William County City of Newport News City of Williamsburg Mathews County City of Norfolk Gloucester County Middlesex County City of Poquoson Isle of Wight County Surry County\* City of Portsmouth James City County York County

\*Excluding the Town of Claremont

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Reporting Entity**

HRSD is a political subdivision of the Commonwealth and a government instrumentality. The Commission is granted corporate powers by the *Code of Virginia*. The Governor of the Commonwealth appoints the Commission members, who serve at his pleasure. HRSD is reported in the Commonwealth's Comprehensive Annual Financial Report as a discretely presented component unit. The Commonwealth is not obligated to repay HRSD's debt. HRSD derives its revenues primarily from charges for wastewater treatment services. HRSD has no taxing authority.

#### Basis of Accounting

The accompanying financial statements report the financial position and results of operations of HRSD in accordance with U.S. generally accepted accounting principles (GAAP). Because HRSD is a political subdivision of the Commonwealth, the preparation of HRSD's financial statements are governed by the pronouncements of the Governmental Accounting Standards Board (GASB). These statements are prepared on an enterprise fund basis and present HRSD's operating revenues and expenses in a manner similar to a private business, where the costs, including depreciation, of providing services to the general public on a continuing basis are financed or recovered primarily through user charges.

An enterprise fund, a proprietary fund type, is accounted for on an economic resources measurement focus. All assets and liabilities, whether current or noncurrent, associated with its activities are included on its statements of net position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in fund equity. The financial statements are presented using the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred.

#### **Budgetary Accounting and Control**

HRSD operates in accordance with annual operating and capital budgets prepared on a basis of accounting that is different from generally accepted accounting principles. The operating budget is adopted by department, with budgetary controls exercised administratively by management at the department level. The General Manager is authorized to transfer funds among departments without further approval by the Commission. Appropriations lapse at the end of the fiscal year. The Capital Budget represents a ten-year plan. Funds for the Capital Budget are appropriated throughout a fiscal year on a project basis. Transfers among projects require approval by the Commission. Appropriations for these budgets continue until the purpose of the appropriation has been fulfilled.

#### Cash Equivalents

All short-term investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to cash, and at the day of purchase, have an original maturity date of no longer than three months. Current restricted cash and cash equivalents are revenue bond proceeds held for construction of assets within the next 12 months, as well as cash restricted for debt service payments payable within the next year. Money market investments include accounts that are invested in government securities and are valued at net asset value (NAV), the Commonwealth of Virginia Local Government Investment Pool (LGIP), which is measured at amortized cost, and the VACo/VML Virginia Investment Pool's (VIP) 1-3 Year High Quality Bond Fund and Stable NAV Liquidity Pool, which are recorded at amortized cost, which approximates fair value. See Note 3 and Note 13 for additional discussion of cash and cash equivalent and investment valuations. Noncurrent restricted cash and cash equivalents are revenue bond proceeds held for the construction of noncurrent assets expected to be spent after 12 months (see Note 3).

#### Investments

Investments, which consist of U.S. government obligations including agencies, FDIC-guaranteed corporate notes, other corporate notes and bonds, and municipal bonds, are reported at fair value. HRSD's investment practices are governed by its formal investment policy.

#### Allowance for Uncollectible Accounts

HRSD provides an allowance for estimated uncollectible accounts receivable based on its bad debt experience. The balance in the allowance for uncollectible accounts is considered by management to be sufficient to cover anticipated losses on reported receivable balances.

#### **Inventories**

Inventories consist primarily of fuel and maintenance parts. Inventories are carried at cost or average cost.

#### Property, Plant and Equipment

HRSD funds its capital improvement program through the issuance of debt and its own resources. The proceeds of debt are reported as restricted assets. Generally, for projects funded with both debt proceeds and other resources, it is HRSD's policy to use available debt proceeds to pay project expenditures prior to using its own resources.

Property, plant and equipment purchased or constructed are reported at cost, which included interest cost on funds borrowed to finance the construction of major capital additions through June 30, 2018. See New Accounting Pronouncements, below. The capitalization threshold is \$5,000. Donated assets are reported at acquisition value at the date of donation. Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Treatment plants, buildings and facilities	30 years
Interceptor systems	50 years
Office furniture and equipment	5-10 years
Software and intangible assets	5-7 years
Automotive	5 years

Depreciation and amortization recognized on property, plant and equipment is an operating expense.

#### Deferred Outflows and Inflows of Resources

In addition to assets, the statements of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expenses) until then. HRSD has six items that qualify for reporting in this category. The first is the deferred charge on refunding reported in the statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second through fourth amounts are differences between expected and actual experience on the OPEB and pension plans; the net difference between OPEB expected and actual experience; and the change in proportion for OPEB plans. These differences will be recognized in pension expense in future reporting periods. The fifth and sixth deferred charges are for OPEB and pension contributions to the Virginia Retirement System made subsequent to the measurement dates of June 30, 2018 and 2017. These contributions will be recognized as reductions of the Net OPEB and Net Pension Liabilities during the years ended June 30, 2020 and 2019, respectively.

In addition to liabilities, the statements of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The three types of these items that HRSD has for the OPEB and pension plans are the differences between expected and actual experience, the changes of OPEB and pension assumptions, and the net difference between projected and actual earnings on OPEB and pension plan investments, which will be recognized in pension expense in future reporting periods.

#### Revenue Recognition

Generally, wastewater treatment charges are computed based on a user's water consumption. These charges are recognized as revenue when billed. Revenues earned but unbilled through June 30 of each fiscal year are accrued at year-end. Wastewater facility charges are computed based on a new connection's water meter size and potential for high strength pollutant discharges, and are recognized as revenue prior to the issuance of a building or operating permit.

#### Operating and Non-operating Revenues and Expenses Recognition

HRSD distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with HRSD's principal service of providing wastewater treatment. The majority of operating revenues are from wastewater treatment, but other associated miscellaneous income from other related services and charges are also included. Revenues and expenses not meeting the operating definition are reported as non-operating. These consist mainly of wastewater facility charges, investment income, capital contributions and interest expense.

#### Compensated Absences

All permanent employees earn leave upon starting a full-time position. The amount and type of leave earned is based upon the employee's date of hire and years of service and is expensed as employees earn the right to these benefits.

Permanent employees hired prior to January 1, 2014 earn from 15 to 27 days of annual leave per year. The maximum annual leave an employee may accumulate at year-end varies by the years of service, with the maximum being 54 days. An employee has a vested right to their annual leave when earned. These employees also earn eight hours per month of sick leave regardless of the number of years of service. The amount of sick leave that may be accumulated is unlimited. After five years of service with HRSD, an employee has vested rights to 35 percent of accumulated sick leave to a maximum of \$10,000. For these employees, long-term disability (LTD) insurance is an optional employee paid benefit that replaces part of their income if the employee suffers a serious illness or injury and can't work for an extended period of time.

Permanent employees hired after January 1, 2014 earn 8 hours of paid time off for each two-week pay period. Employees may use accumulated paid time off for any type of absence from work, subject to supervisor approval. The maximum paid time off an employee may accumulate at year-end is 208 hours. After five years of service with HRSD, an employee has vested rights to 50 percent of their accumulated paid time off at separation. For these employees, HRSD also provides a state mandated long-term disability (LTD) benefit since these employees are not

eligible for disability retirement benefits through Virginia Retirement System. The long-term disability benefit provides income replacement for employees who become disabled and unable to work for an extended period of time due to a non work-related or work-related condition (as determined under the Virginia Workers' Compensation Act). Long-term disability benefits begin at the expiration of an additional state mandated employer paid short-term disability (STD) benefit period of 125 days.

#### Postemployment Benefits Other Than Pensions (OPEB)

HRSD employees participate in three postemployment benefits other than pensions (other postemployment benefits or OPEB) plans:

The HRSD Retiree Health Plan (RHP) is a single employer, defined benefit plan that provides health and dental benefit plans for eligible members through a self-funded plan administered by a third-party vendor. HRSD administers the Plan through the Hampton Roads Sanitation District Retiree Health Trust. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the RHP and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the RHP. For this purpose, the RHP recognizes benefit payments when due and payable in accordance with the benefit terms.

The Virginia Retirement System (VRS) Political Subdivision Health Insurance Credit Program (HIC) is a multiple-employer, agent defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. The Political Subdivision Health Insurance Credit Program was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. For purposes of measuring the net HIC OPEB liability, deferred outflows of resources and deferred inflows of resources related to the HIC OPEB, and the HIC OPEB expense, information about the fiduciary net position of the VRS HIC; and the additions to/deductions from the VRS HIC's fiduciary net position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The VRS Group Life Insurance Program is a multiple-employer, costsharing plan, that provides coverage to state employees, teachers, and employees of participating political subdivisions. The Group Life Insurance Program was established pursuant to §51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The Group Life Insurance Program is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers. For purposes of measuring the net Group Life Insurance Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Group Life Insurance Program OPEB, and Group Life Insurance Program OPEB expense, information about the fiduciary net position of the Virginia Retirement System (VRS) Group Life Insurance program OPEB and the additions to/deductions from the VRS Group Life Insurance Program OPEB's fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Pensions

HRSD employees participate in an agent multiple-employer defined benefit pension plan administered by the VRS, which acts as a common investment and administrative agent for political subdivisions in the Commonwealth. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of HRSD's Retirement Plan and the additions to or deductions from HRSD's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported to HRSD by VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

#### Use of Estimates

The preparation of these financial statements requires management to make estimates and assumptions. These estimates affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from management's estimates.

#### **New Accounting Pronouncements**

During the fiscal year ended June 30, 2019, HRSD adopted GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective July 1, 2018. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period, and replaces the requirements of GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are applied prospectively, so no adjustment to net position was required.

Also during the fiscal year ended June 30, 2019, HRSD adopted GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, effective July 1, 2018. This Statement defines debt for purposes of disclosure in notes to financial statements and establishes additional financial statement note disclosure requirements related to debt obligations of governments, including direct borrowings (for example, a government entering into a loan agreement with a lender) and direct placements (for example, a government issuing a debt security directly to an investor). Direct borrowings and direct placements have terms negotiated directly with the investor or lender and are not offered for public sale. The requirements of this Statement apply to the financial statements of all state and local governments.

During the fiscal year ended June 30, 2018, HRSD adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This statement replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended; and GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. The objective of Statement No. 75 is to improve the usefulness of information for decisions made by the various users of the general purpose external financial reports (financial reports) of governments whose employees, both active employees and inactive employees, are provided with postemployment benefits other than pensions. As a result of the adoption of Statement No. 75, HRSD has made an adjustment to net position as of July 1, 2017, to recognize the cumulative effect of the change in accounting for pensions as further discussed in Note 14.

#### **NOTE 3 - DEPOSITS AND INVESTMENTS**

#### **Deposits**

Custodial Credit Risk. This risk is associated with the inability of a governmental entity to recover deposits from a financial institution in the event of a failure. At June 30, 2019 and 2018, the carrying values of HRSD's deposits were \$20,346,000 and \$24,753,000, respectively, and the bank balances were \$29,940,000 and \$27,446,000, respectively. All of the bank balances at June 30, 2019 were covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act (the Act). In accordance with the Act, the depository institution pledged collateral in the form of federal obligations with a fair value equal to 110 percent of HRSD's deposits with a third party trustee in the name of the Treasurer of the Commonwealth. In the event that the banking institution fails, the Treasurer will take possession of the collateral, liquidate it and reimburse HRSD up to the value of its deposits. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by banks.

Credit Risk. HRSD invests overnight in money market accounts that are invested in government securities and the State Non-Arbitrage Program (SNAP) Fund Class and the Commonwealth of Virginia Local Government Investment Pool (LGIP) in FY2018. In 2018, HRSD invested highly liquid funds in the LGIP and less liquid funds in a 1-3 year duration fund managed by PFM. Oversight for SNAP and LGIP is provided by the Treasury Board of Virginia. In FY2019, HRSD divested investments managed by PFM and LGIP and invested in VACo/VML Virginia Investment Pool's (VIP) 1-3 Year High Quality Bond Fund and Stable NAV Liquidity Pool. Oversight is provided by the VACo/VML Board of Trustees. HRSD's investments in the VIP 1-3 Year High Quality Bond Fund and the VIP Stable NAV Liquidity Pool were rated AA+f/S1 and AAAm, respectively, by Standard & Poor's, and HRSD's investment in the LGIP was rated AAAm by Standard & Poor's.

#### Investments

At June 30, 2019, all funds were held as cash and cash equivalents. As of June 30, 2018, HRSD had the following investments and maturities:

#### (in thousands)

#### Investment Maturities (in years)

As of June 30, 2018		Fair Value		Less Than 1		1-3
Investment Type						
U.S. Treasury Securities		\$	53,627	\$	2,998	\$ 50,629
Federal Agency Notes / Bonds			26,918		3,611	23,307
Certificates of Deposit			7,324		2,439	4,885
Commercial Paper			4,921		4,921	-
Corporate Notes / Bonds			20,633		3,902	16,731
Municipal Bonds			1,452		-	1,452
Supranationals			9,215		<u>-</u>	 9,215
To	otal	\$	124,090	\$	17,871	\$ 106,219

*Interest Rate Risk.* In accordance with its investment policy, HRSD manages its exposure to declines in fair values by limiting the weighted average maturity of various portfolios in a manner that meets HRSD's liquidity needs.

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, HRSD will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. HRSD's policy is to utilize its Trustees for its investments, the Bank of New York Trust Department and the US Bank Trust Department, as recipients of all investment transactions on a delivery versus pay basis. The Trustees may not be a counterparty to the investment transaction. At June 30, 2019 and 2018, the Trust Department of the Bank of New York held approximately \$14,335,000 and \$67,278,000, respectively, in investments in the Trustee's name for HRSD. At June 30, 2019, all funds were held as cash and cash equivalents. As of June 30, 2018, the Trust Department of US Bank held approximately \$124,090,000 in investments in the Trustee's name for HRSD. HRSD divested all government security investments under US Bank in FY2019, therefore at June 30, 2019, US Bank has zero investments in the Trustee's name for HRSD.

*Credit Risk.* HRSD's Trust Agreement permits HRSD to invest in investment instruments that are authorized by the Commonwealth. At June 30, 2019, all funds were held as cash and cash equivalents. HRSD's year ending June 30, 2018, investment securities using the Standard & Poor's credit quality ratings scale are presented below:

#### As of June 30, 2018

#### Standard & Poor's Credit Rating by Investment Type

(in thousands)	AAA	AA+	AA	AA-	A+	A-1+	A-1	Total
<u>Investments</u>								
U.S. Treasury Securities	\$ -	\$53,627	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 53,627
Federal Agency Notes / Bonds	-	26,918	-	-	-	-	-	26,918
Certificates of Deposit	-	-	-	4,885	-	2,439	-	7,324
Commercial Paper	-	-	-	-	-	-	4,921	4,921
Corporate Notes / Bonds	1,318	5,218	2,731	11,366	-	-	-	20,633
Municipal Bonds	-	-	-	1,452	-	-	-	1,452
Supranationals	9,215	-	-	-	-	-	-	9,215
<b>Total Investments</b>	\$10,533	\$85,763	\$ 2,731	\$17,703	\$ -	\$ 2,439	\$ 4,921	\$124,090

Concentration of Credit Risk. HRSD's investment policy includes a maximum exposure for each individual issuer for its permitted investment categories. U.S. Treasury obligations, collateralized bank deposits, money market funds and local government investment pools, however, are not subject to these issuer limits. Federal agency obligations and repurchase agreements are limited to 35 percent per issuer. Municipal obligations, commercial paper, and

bankers acceptances are limited to 5 percent per issuer. Corporate notes and negotiable certificates of deposit are limited to 3 percent per issuer.

The change in fair value for the years ended June 30:

(in thousands)	2	019	_	2018
Fair value of investments, end of year	\$	-	\$	124,090
Add: Proceeds of investments sold or maturing				
during the year	12	24,090		68,799
Less: Cost of investments purchased during the year		-		(70,584)
Less: Fair value of investments, beginning of year	(12	24,090)		(123,687)
Change in fair value of investments	\$	-	\$	(1,382)

The components of restricted cash and cash equivalents and investments at June 30 are as follows:

(in thousands)	_	2019		_	2018
Debt service	\$	28,553	\$	3	27,799
Revenue bond construction funds - current		14,335			16,919
Revenue bond construction funds - noncurrent		-	_		50,359
Total cash and cash equivalents - restricted	\$	42,888	\$	;	95,077

#### **HRSD OPEB Trust Investments**

The HRSD OPEB Trust has investments in mutual funds, cash, and cash equivalents on deposit with its trustee, US Bank. Investments are reported at fair value. HRSD's OPEB investment practices are governed by its formal investment policy.

As of June 30, 2019 and 2018, the plan had the following investments and maturities:

International equity	10,896	10,301
Fixed income	19,428	17,227
Other Income	1,175	-
Money market	171_	29
Total Investments	\$ 52,025	\$ 47,103

Fixed income investments have an average maturity of 6.9 years and an average credit quality of A. Other investments do not have a stated maturity or credit rating.

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, HRSD will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. HRSD's policy is to utilize its Trustee for its investments the US Bank Trust Department, as recipient of all investment transactions on a delivery versus pay basis. The Trustees may not be a counterparty to the investment transaction. At June 30, 2019, the Trust Department of the US Bank held approximately \$52,025,000 in investments in the Trustee's name for HRSD.

#### **NOTE 4 - ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS**

An analysis of the allowance for uncollectible accounts for the years ended June 30:

(in thousands)	 2019	_	2018
Balance, beginning of year	\$ 2,180	\$	2,445
Add: Current provision for uncollectible accounts	2,976		1,736
Less: Charge-off of uncollectible accounts	(2,467)		(2,001)
Balance, end of year	\$ 2,689	\$	2,180

HRSD's collection ratios for the years ended June 30, 2019 and 2018 were 99.2 and 99.3 percent, respectively.

#### **NOTE 5 - PROPERTY, PLANT AND EQUIPMENT**

Property, plant and equipment activity for the years ended June 30:

(in thousands)	Balance 6/30/17 Additions		Transfers/ Balance Retirements 6/30/18		Additions		Transfers/ Retirements		Balance 6/30/19

Less: Current liability	5,279			5,541			5,888
Long-term liability	\$ 3,124			\$ 2,863			\$ 2,201

#### NOTE 7 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

#### **Plan Descriptions**

As discussed in Note 2, HRSD provides postemployment benefits other than pensions (OPEB) for its employees through three OPEB plans: the Hampton Roads Sanitation District Retiree Health Plan (RHP), a single employer defined benefit plan, and two plans administered by the Virginia Retirement System, the Group Life Insurance Plan (GLI), a multiple-employer cost sharing plan, and the Political Subdivision Health Insurance Credit Plan (HIC), a multiple-employer, agent defined benefit plan.

#### RHP

The RHP was established and may be amended by the Commission. HRSD administers the RHP through the Hampton Roads Sanitation District Retiree Health Trust (the Trust), an irrevocable trust to be used solely for providing benefits to eligible retired employees and their beneficiaries (members) in the RHP. HRSD's contributions to the Trust are dedicated irrevocably to providing post-retirement health benefits, the RHP assets are exclusively dedicated to providing benefits to members, and the RHP assets of the Trust are not subject to the claims of HRSD creditors or the Plan administrator. Employer contributions are recorded in the year they are made. Investments are reported at market value based on published prices and quotations. The RHP does not issue stand-alone financial statements.

#### Eligible Employees

HRSD employees are eligible for benefits upon retirement provided the employee has 15 years of service with HRSD or 10 years of service with HRSD plus 10 years of service with another Virginia Retirement System (VRS) employer with a retiree health plan; are qualified for unreduced retirement benefits from VRS; and are enrolled in the HRSD Health Insurance Plan prior to retirement. Participating beneficiaries may continue coverage under the plan after the death of the retiree. Medicare eligible participants are required to enroll in both Medicare Part A and Part B, and may participate in a Medicare supplement plan. Members not eligible for Medicare may participate in a high deductible health plan.

#### Benefits provided

The RHP health plan provides medical and prescription services using both in network and out of network providers through a self-funded plan administered by a third-party vendor. HRSD purchases stop-loss insurance to limit its exposure to catastrophic medical costs. Members may elect to purchase dental and vision benefit plans at their own expense.

#### GLI

All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS GLI upon employment. This plan is administered by the VRS, along with pensions and other OBEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the Group Life Insurance Program OPEB.

The specific information for Group Life Insurance Program OPEB, including eligibility, coverage and benefits follows:

#### Eligible Employees

The Group Life Insurance Program was established July 1, 1960, for state employees, teachers and employees of political subdivisions that elect the program. Basic group life insurance coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their member contributions and accrued interest.

#### Benefit Amounts

The benefits payable under the Group Life Insurance Program have several components.

- Natural Death Benefit The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled.
- Accidental Death Benefit The accidental death benefit is double the natural death benefit.
- Other Benefit Provisions In addition to the basic natural and accidental death benefits, the program provides additional benefits provided under specific circumstances. These include:
  - o Accidental dismemberment benefit
  - Safety belt benefit
  - Repatriation benefit
  - Felonious assault benefit
  - Accelerated death benefit option

#### Reduction in Benefit Amounts

The benefit amounts provided to members covered under the Group Life Insurance Program are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value.

Minimum Benefit Amount and Cost-of-Living Adjustment (COLA)

For covered members with at least 30 years of creditable service, there is a minimum benefit payable under the Group Life Insurance Program. The minimum benefit was set at \$8,000 by statute. This amount is increased annually based on the VRS Plan 2 cost-of-living adjustment was increased to \$8,279 effective July 1, 2018.

#### HIC

All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision Health Insurance Credit Program upon employment. This plan is administered by the VRS, along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Political Subdivision Health Insurance Credit Program OPEB, including eligibility, coverage and benefits follows:

#### Eligible Employees

The Political Subdivision Retiree Health Insurance Credit Program was established July 1, 1993 for retired political subdivision employees of employers who elect the benefit and who retire with at least 15 years of service credit. Eligible employees of participating political subdivisions are enrolled automatically upon employment. They include full-time permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan.

#### Benefit Amounts

The political subdivision's Retiree Health Insurance Credit Program provides the following benefits for eligible employees:

- At Retirement For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month.
- Disability Retirement For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

Health Insurance Credit Program Notes:

- The monthly Health Insurance Credit benefit cannot exceed the individual premium amount.
- No health insurance credit for premiums paid and qualified under the VRS Line of Duty Act Program (LODA), however, the employee may receive the credit for premiums paid for other qualified health plans.
- Employees who retire after being on long-term disability under VLDP must have at least 15 year of service credit to qualify for the health insurance credit as a retiree.

#### **Employees Covered by Benefit Terms**

As of the June 30, 2018 and 2017 actuarial valuation dates the following employees were covered by the benefit terms of the RHP:

	2018	2017
Beneficiaries currently receiving benefit payments	163	152
Active employees	719_	708
Total	882	860

There are no inactive employees entitled to but not yet receiving plan benefits.

As of the June 30, 2017 and 2016 actuarial valuation dates the following employees were covered by the benefit terms of the HIC:

	2017	2016
Inactive members or their beneficiaries currently receiving benefit payments	229	218
Vested	6	7
Total Inactive Members	235	225
Active employees	780	781
Total	1,015	1,006

#### **Contributions**

RHP contribution requirements are actuarially determined. Funding is subject to approval by the Commission. Medicare-eligible members contribute \$45 per month for retiree-only coverage and from \$442 to \$460 per month for retiree and dependent coverage. Members not eligible for Medicare contribute \$120 per month for retiree-only coverage and from \$517 to \$535 per month for retiree and dependent coverage. HRSD funds the cost of coverage under the RHP by paying the difference between the contributions it requires retirees to make and the actuarially determined contribution (ADC). The current employer contribution rate is approximately 5 percent of annual covered payroll. HRSD contributed \$2,993,000 to the RHP for the year ended June 30, 2019 and HRSD contributed \$2,729,000, and Retirees contributed \$303,000, for the year ended June 30, 2018.

The GLI contribution requirements for the Group Life Insurance Program are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the Group Life Insurance Program was 1.31% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.79% (1.31% X 60%) and the employer component was 0.52% (1.31% X 40%). Employers may elect to pay all or part of the employee contribution, however the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the years ended June 30, 2019 and 2018 was 0.52% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions from HRSD to the Group Life Insurance Program were \$267,000 and \$259,000 for the years ended June 30, 2019 and June 30, 2018, respectively.

The HIC contribution requirement for active employees is governed by §51.1-1402(E) of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. HRSD's contractually required employer contribution rates for the years ended June 30, 2019 and 2018 were 0.21% and 0.19% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017. The actuarially determined rate was expected to

finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from HRSD to the Political Subdivision Health Insurance Credit Program were \$108,000 and \$95,000 for the years ended June 30, 2019 and June 30, 2018, respectively.

#### RHP OPEB Expenses and Deferred Outflows of Resources Related to RHP OPEB

HRSD recognized RHP OPEB expense of \$1,966,000 for the year ended June 30, 2019. At June 30, 2019, HRSD reported deferred inflows of resources related to OPEB from the following sources:

(in thousands)		ed Outflows esources	Deferred Inflows of Resources		
Year ended June 30, 2019:	_		_	_	
Differences between expected and actual experience	\$	2,936	\$	-	
Changes of assumptions		-		1,428	
Net difference between projected and actual earnings on plan					
investments		-		677	
	\$	2,936	\$	2,105	
Year ended June 30, 2018: Net difference between projected and actual earnings on plan					
investments		-	\$	692	

HRSD's measurement date is its fiscal year end so there are no deferred outflows of resources resulting from contributions subsequent to the measurement date. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense in future reporting periods as follows:

Year ended June 30,	(in tho	(in thousands)	
2020	\$	(24)	
2021		(24)	
2022		(24)	
2023		149	
2024		188	
Thereafter		566	
	\$	831	

# GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Program OPEB

At June 30, 2019 and 2018, HRSD reported liabilities of \$3,981,000 and \$3,915,000, respectively, for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liabilities were measured as of June 30, 2018 and June 30, 2017 and the total GLI OPEB liabilities used to calculate the Net GLI OPEB Liability were determined by actuarial valuations as of those dates. The covered employer's proportion of the Net GLI OPEB Liability was based on HRSD's actuarially determined employer contributions to the Group Life Insurance Program for the years ended June 30, 2018 and 2017 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2018 and 2017, HRSD's proportion was 0.26214% and 0.26016%, respectively. For the years ended June 30, 2019 and 2018, HRSD recognized GLI OPEB expense of \$49,000 and \$38,000, respectively. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2019 and 2018, HRSD reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

(in thousands) Year ended June 30, 2019:	Deferred Outflows of Resources		Deferred Inflows Resources	
Differences between expected and actual experience  Net difference between projected and actual earnings on GLI  ORER program investments	\$	195	\$	71
OPEB program investments Change in assumptions		-		130 166
Changes in proportion		- 51		-
Employer contributions subsequent to the measurement date		267		_
Total	\$	513	\$	367
Year ended June 30, 2018:	Ψ	313	Ψ	
Differences between expected and actual experience  Net difference between projected and actual earnings on GLI	\$	-	\$	87
OPEB program investments		-		147
Change in assumptions		-		202
Changes in proportion		28		-
Employer contributions subsequent to the measurement date		259		
Total	\$	287	\$	436

HRSD reported \$267,000 and \$259,000 as of June 30, 2019 and 2018, respectively, as deferred outflows of resources related to the GLI OPEB resulting from the HRSD's contributions subsequent to the measurement date which will be recognized as a reduction of the Net GLI OPEB Liability in the Fiscal Years ending June 30, 2020 and 2019, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

2022		(49)
2023		(12)
2024		20
Thereafter		18
	_\$_	(121)

### <u>HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC OPEB</u>

For the years ended June 30, 2019 and 2018, HRSD recognized Health Insurance Credit Program OPEB expense of \$96,000 and \$88,000, respectively. At June 30, 2019, HRSD reported deferred outflows of resources and deferred inflows of resources related to the Political Subdivision Health Insurance Credit Program from the following sources:

(in thousands) Year ended June 30, 2019:		d Outflows sources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$	23	\$	-	
Net difference between projected and actual earnings on HIC OPEB program investments		-		21	
Change in assumptions		-		16	
Employer contributions subsequent to the measurement date		108		_	
Total	\$	131	\$	37	
Year ended June 30, 2018: Net difference between projected and actual earnings					
on HIC OPEB program investments	\$	-	\$	28	
Change in assumptions		-		19	
Employer contributions subsequent to the		0.5			
measurement date		95			
Total	<u>\$</u>	95	<u>    \$                                </u>	47	

HRSD reported \$108,000 and \$95,000 reported as deferred outflows of resources related to the HIC OPEB resulting from HRSD's contributions subsequent to the measurement date which will be recognized as a reduction of the Net HIC OPEB Liability in the Fiscal Year ending June 30, 2020 and 2019, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIC OPEB will be recognized in the HIC OPEB expense in future reporting periods as follows:

Year ended June 30,	(in thousands)
2020	\$ (6)
2021	(6)
2022	(6)
2023	1
2024	1
Thereafter	2
	\$ (14)

#### **Actuarial Methods and Assumptions**

The total RHP OPEB liabilities were based on actuarial valuations as of June 30, 2018 and 2017, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement dates of June 30, 2019 and 2018.

Inflation	2.2 percent
Salary increases, including inflation	3.5 percent - 5.35 percent
Investment rate of return	7.0 percent, net of investment expenses, including inflation*

Mortality rates for the RHP are as follows:

Healthy	RP-2014 Mortality Table, Fully Generational, Projected with Scale MP-2014.
Disabled	RP-2014 Mortality Table, Fully Generational, Projected with Scale MP-2014.

The total GLI and HIC OPEB liabilities were based on actuarial valuations as of June 30, 2017 and 2016, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement dates of June 30, 2018 and 2017.

Inflation 2.5 percent

Salary increases, including inflation 3.5 percent - 5.35 percent

Investment rate of return 7.0 percent, net of investment expenses, including inflation\*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GAAP purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of the OPEB liabilities.

Mortality tables and assumptions for GLI and HIC are as follows:

#### Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with Scale BB to 2020; males 95% of rates; females 105% of rates.

#### Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with Scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

#### Post-Disablement:

RP-2014 Disability Life Mortality Table projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2017 and 2016 valuations were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2017. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, Updated to a more current mortality table –

postretirement healthy, and disabled) RP2014 projected to 2020

Retirement Rates Lowered retirement rates at older ages and

extended final retirement age from 70 to 75.

Withdrawal Rates Adjusted termination rates to better fit experience

at each age and service year

Disability Rates Lowered disability rates

Salary Scale No change

Line of Duty Disability Increased rate from 14% to 15%

#### Long-Term Expected Rate of Return

The long-term expected rate of return on RHP investments was determined using an economic building block approach that projects economic and corporate profit growth and takes into consideration the fundamental factors driving long-term real economic growth, our expectation for inflation, productivity, and labor force growth. The returns presented here are geometric return projections based on long-term capital market assumptions. The asset target allocations are governed by its formal investment policy. The best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

June 30, 2019		Arithmetic Long-Term	Weighted Average Long-Term
	Target	Expected	Expected
Asset Class (Strategy)	Allocation	Rate of Return	Rate of Return
Domestic Equity	39.00%	7.50%	2.93%
International Developed Equity	15.00%	7.40%	1.11%
International Emerging Markets Equity	6.00%	7.50%	0.45%
Core Fixed	20.00%	5.10%	1.02%
Investment Grade Corporate Debt	10.00%	6.10%	0.61%
Emerging Markets Debt	5.00%	6.70%	0.34%
High Yield	5.00%	6.60%	0.33%
Total	100.00%		6.79%
		Inflation	2.50%
	* Expected arith	metic nominal return	9.29%

<sup>\*</sup> The above allocation provides a one-year return of 9.29%. However, one-year returns do not take into account the volatility present in each of the asset classes so a rate of 6.0% is used.

Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
20.000/	F 000/	0.000/
39.00%	5.20%	2.03%
15.00%	5.20%	0.78%
6.00%	5.20%	0.31%
20.00%	3.00%	0.60%
10.00%	3.75%	0.38%
5.00%	4.75%	0.24%
5.00%	4.25%	0.21%
100.00%		4.55%
	Inflation	2.50%
* Expected arith	metic nominal return	7.05%
	Allocation  39.00% 15.00% 6.00% 20.00% 10.00% 5.00% 100.00%	Target Expected Rate of Return  39.00% 15.00% 5.20% 6.00% 5.20% 20.00% 10.00% 3.75% 5.00% 4.75% 5.00% 100.00%

<sup>\*</sup> The above allocation provides a one-year return of 7.05%. However, one-year returns do not take into account the volatility present in each of the asset classes so a rate of 6.0% is used.

The long-term expected rate of return on the GLI and HIC investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	40.00%	4.54%	1.82%
Fixed Income	15.00%	0.69%	0.10%
Credit Strategies	15.00%	3.96%	0.59%
Real Assets	15.00%	5.76%	0.86%
Private Equity	15.00%	9.53%	1.43%
Total	100.00%		4.80%
		Inflation	2.50%
	* Expected arith	metic nominal return	7.30%

<sup>\*</sup> The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

#### **Discount Rates**

The discount rate used to measure the total OPEB liability for the RHP, as of June 30, 2019, was 6.0%. The projection of cash flows used to determine the discount rate assumes that HRSD contributions will be made in accordance with the funding plan established by an independent actuarial review.

The discount rate used to measure the total GLI and HIC liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2019, the rate contributed by the entity for the GLI and HIC will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2019 on, employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI and HIC fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI and HIC liability.

#### **Change in Net OPEB Liability**

HRSD's Net OPEB Liability (NOL) as of June 30, 2019 for the RHP was measured as of June 30, 2019 using a June 30, 2018 valuation, which has been rolled forward to the June 30, 2019 measurement date.

RHP (in thousands)	Lia	Total OPEB Liability (a)		Plan Fiduciary Net Position (b)		et OPEB Liability a) - (b)

#### Net GLI OPEB Liability

The net OPEB liability (NOL) for the Group Life Insurance Program represents the program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement dates of June 30, 2018 and 2017, NOL amounts for the Group Life Insurance Program are as follows:

(in thousands)	2018	2017
Total GLI OPEB Liability	\$ 3,113,508	\$ 2,942,426
Plan Fiduciary Net Position	1,594,773	1,437,586
Net GLI OPEB Liability	\$ 1,518,735	\$ 1,504,840
Plan Fiduciary Net Position as a Percentage of the Total GLI OPEB Liability:	51.22%	48.86%

The total GLI OPEB liability is calculated by the VRS's actuary, and each plan's fiduciary net position is reported in the VRS's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS's notes to the financial statements and required supplementary information.

#### Sensitivity of the Net OPEB Liabilities to Changes in the Discount Rate and Healthcare Cost Trend Rate

The following table presents the net RHP OPEB liability if it is calculated using a discount rate that is one percentage point lower (5.0%) or one percentage point higher (7.0%) than the current discount rate:

Discount Rate		Decrease (5.0%)	Current Discount Rate (6.0%)		1% Increase (7.0%)	
Net RHP OPEB Liability (in thousands) Year ended June 30, 2019:	\$	25.007	\$	13.668	¢	4.617
Year ended June 30, 2018:	Ψ	24,210	Ψ	13,000	Ψ	4,419

The following table presents the net RHP OPEB liability if it is calculated using a healthcare cost trend rate that is one percentage point lower (2.2%) or one percentage point higher (4.2%) than the current healthcare cost trend rate:

Ultimate Trend	 Decrease 2.2%)	Healthcare Cost Trend Rate (3.2%)		1% Increase (4.2%)	
Net RHP OPEB Liability (in thousands) Year ended June 30, 2019: Year ended June 30, 2018:	\$ 3,236 3,173	\$	13,668 13,173	\$	27,102 26,116

The following table presents the net GLI OPEB liability using the discount rate of 7.00%, as well as what the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

Discount Rate	 Decrease 6.0%)	 nt Discount e (7.0%)	 Increase 8.0%)
GLI Net OPEB Liability (in thousands) Year ended June 30, 2019: Year ended June 30, 2018:	\$ 5,202 5,064	\$ 3,981 3,915	\$ 2,989 2,984

The following presents the net HIC OPEB liability using the discount rate of 7.00%, as well as what the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

Discount Rate	1% Decrease (6.0%)		Current Discount Rate (7.0%)		1% Increase (8.0%)	
HIC Net OPEB Liability (in thousands) Year ended June 30, 2019:	\$	1,306	\$	1,095	\$	916
Year ended June 30, 2018:		1,263		1,061		887

#### GLI Fiduciary Net Position and HIC Plan Data

GLI Fiduciary Net Position and HIC Plan Data is available in the separately issued VRS 2018 and 2017 Comprehensive Annual Financial Reports (CAFR). Copies of the 2018 and 2017 VRS CAFRs may be downloaded from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf</a> and <a href="http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### **NOTE 8 – DEFINED BENEFIT PENSION PLAN**

#### Plan Description

HRSD employees participate in an agent multiple-employer defined benefit pension plan administered by the Virginia Retirement System (VRS). All full-time, salaried permanent employees of HRSD are automatically covered by the Plan upon employment. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave and previously refunded service.

VRS administers three different benefit structures for covered employees – Plan 1, Plan 2 and the Hybrid Retirement Plan (HRP). The specific information for each plan is set out below:

- Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010 and they were vested as of January 1, 2013. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or at age 55 with at least 30 years of service credit. They may retire with a reduced benefit as early as age 55 with at least five years of service credit or age 50 with at least 10 years of service credit.
- Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, and they were not vested as of January 1, 2013. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- The Hybrid Retirement Plan (HRP) combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window from January 1 through April 30, 2014. The employee's retirement benefit is funded through mandatory and voluntary contributions made by the employee and HRSD to both the defined benefit and the defined contribution components of the plan. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.

Members in Plan 1 and Plan 2 contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. HRSD makes a separate actuarially determined contribution to VRS for all covered employees. The retirement benefit for members in the HRP is funded through mandatory and voluntary contributions made by the member and HRSD to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

Members in Plan 1 and Plan 2 earn creditable service for each month they are employed in a covered position, and vest when they have at least five years (60 months) of creditable service. Members in the HRP earn one month of service credit for each month they are employed in a covered position for the defined benefit component, and service credits are used to determine vesting for the employer contribution portion of the plan. HRP members are always 100% vested in the defined contributions they make, and upon retirement or leaving covered employment are eligible to withdraw employer contributions of 50%, 75%, or 100% after two, three, or four years of service, respectively.

The VRS Basic Benefit for Plan 1 and Plan 2 members, and the defined benefit component for HRP members, is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2 and the HRP, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members in Plan 1 is 1.7%; in Plan 2 the multiplier is 1.7% for service earned, purchased or granted prior to January 1, 2013 and 1.65% after that date. The multiplier is 1% for members in the

HRP. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5%; under Plan 2 and for the HRP defined benefit component, the COLA cannot exceed 3%. During years of no inflation or deflation there is no COLA adjustment. The VRS also provides death and disability benefits.

VRS issues a publically available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <a href="http://www.varetire.org/publications/index.asap">http://www.varetire.org/publications/index.asap</a> or obtained by writing to VRS at P.O. Box 2500, Richmond, Virginia 23218-2500.

#### **Employees Covered by Benefit Terms**

As of the June 30, 2017 and 2016 actuarial valuation dates, the following employees were covered by the benefit terms of the pension plan:

	2017	2016
Inactive Members or Their Beneficiaries Currently Receiving Benefits	369	355
Inactive Members		
Vested	105	105
Non-Vested	138	147
Active Elsewhere in VRS	80	76
Total Inactive Members	323	328
Active Members	780	781
Total	1,472	1,464

#### Contributions

The contribution requirement for active employees is governed by Section 51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. HRSD's contractually required contribution rate for the years ended June 30, 2019 and 2018 were 6.02% and 7.70% of covered compensation. These rates are based on actuarially determined rates from actuarial valuations as of June 30, 2017 and 2015.

These rates, when combined with employee contributions, are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the pension plan were \$2,866,000 and \$3,635,000 for the years ended June 30, 2019 and 2018, respectively.

#### **Net Pension Liability**

HRSD's net pension liability as of June 30, 2019 and 2018 was measured as of June 30, 2018 and 2017, respectively. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2017 and 2016, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement dates of June 30, 2018 and 2017.

#### **Actuarial Assumptions**

The total pension liability as of June 30, 2019 and 2018 for employees in HRSD's retirement plan was based on actuarial valuations as of June 30, 2017 and 2016, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement dates of June 30, 2018 and 2017, respectively. The actuarial valuations as of June 30, 2017 and 2016 use the following assumptions:

Inflation 2.5%

Salary increases, including inflation 3.5% to 5.35%

Investment rate of return 7%, net of pension plan investment expenses, including inflation\*

Cost of living adjustments 2.25% to 2.50%

The actuarial valuation as of June 30, 2017 uses the following mortality assumptions:

- Mortality rates: 15% of deaths are assumed to be service related.
- Pre Retirement, RP-2014 Employee Rates to age 80, Healthy Annuitant Rates at ages 81 and older projected with Scale BB to 2020; males 95% of rates; females 105% of rates.
- Post Retirement, RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with Scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.
- Post Disablement, RP-2014 Disability Mortality Rates projected with Scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial valuation as of June 30, 2015 uses the following mortality assumptions:

- Mortality rates: 14% of deaths are assumed to be service related.
- Pre Retirement, RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years.
- Post Retirement, RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 1 year.
- Post Disablement, RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2017 valuations were based on the results of an actuarial experience study for the period July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Mortality rates Updated to a more current mortality table RP-2014 projected to 2020.
- Retirement rates Lowered rates at older ages and changed final retirement from 70 to 75.
- Withdrawal rates Adjusted rates to better fit experience at each year age and service through 9 years of service.
- Disability rates Lowered rates.
- Salary scale No change.
- Line of duty disability Increase rate from 14% to 15%.

<sup>\*</sup> Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

The actuarial assumptions used in the June 30, 2015 valuations were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Updated mortality table.
- Decrease in rates of service retirement.
- Decrease in rates of disability retirement.
- Reduce rates of salary increase by 0.25% per year

#### Long-Term Expected Rate of Return

The long-term expected rate of return on pension system investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected real rates of return (expected returns, net of pension system investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The asset target allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return		
Public equity	40.00%	4.54%	1.82%		
Fixed income	15.00%	0.69%	0.10%		
Credit strategies	15.00%	3.96%	0.59%		
Real assets	15.00%	5.76%	0.86%		
Private equity	15.00%	9.53%	1.43%		
Total	100.00%		4.80%		
		Inflation	2.50%		
	* Expected arith	* Expected arithmetic nominal return			

<sup>\*</sup> The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

#### Discount Rate

The discount rate used to measure the total pension liability, as of June 30, 2018 and 2017, was 7.0%. The projection of cash flows used to determine the discount rate assumed that VRS member contributions will be made per the VRS statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2018, the alternate rate was the employer contribution rate used in FY2012 or 90% of the actuarially determined employer contribution rate from the June 30, 2015, actuarial valuations, whichever was greater. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Benefit, Pension Expense, and Deferred Outflows of Resources and Deferred Outflows of Resources Related to Pensions

HRSD recognized a pension benefit of \$1,040,000 and a pension expense of \$645,000 for the years ended June 30, 2019 and 2018, respectively. At June 30, 2019 and 2018, HRSD reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		ed Outflows esources	 red Inflows lesources
Year ended June 30, 2019:	(in thou	sands)	
Differences between expected and actual experience	\$	1,251	\$ 2,951
Changes of assumptions		-	2,250
Net difference between projected and actual earnings on plan investments		-	1,702
Employer contributions subsequent to the measurement date		2,866	
	\$	4,117	\$ 6,903
Year ended June 30, 2018:			
Differences between expected and actual experience	\$	1,827	\$ 4,519
Changes of assumptions		-	3,113
Net difference between projected and actual earnings on plan investments		-	2,827
Employer contributions subsequent to the measurement date		3,635	
	\$	5,462	\$ 10,459

HRSD reported \$2,866,000 and \$3,635,000 as of June 30, 2019 and 2018, respectively, as deferred outflows of resources resulting from HRSD's contributions subsequent to the measurement date, which will be recognized as reductions of the Net Pension Liability in the years ended June 30, 2020 and 2019, respectively. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

	Decrease in Pension Expense
Year ended June 30,	(in thousands)
2020	\$ (1,314)
2021	(1,280)
2022	(2,878)
2023	(180)
2024	<del>-</del>
Thereafter	-
	\$ (5,652)

#### **NOTE 9 – LONG-TERM DEBT**

HRSD issues revenue bonds for various capital improvements including but not limited to wastewater treatment plants and interceptor system improvements. In addition to HRSD's publicly issued revenue bonds, HRSD is indebted for bond issues payable to the Virginia Resources Authority (VRA) as administrator of the Virginia Water Facilities Fund. HRSD is required to adhere to and is in compliance with the rebate and reporting requirements of the federal regulations pertaining to arbitrage.

In fiscal year 2018, HRSD issued \$63.2 million in subordinate wastewater revenue bonds, Series 2018A, to fund capital improvement projects. The new bond provided a premium of \$11,817,000. Also in fiscal year 2018, HRSD issued \$83.5 million in subordinate wastewater revenue refunding bonds, Series 2017A, to fund capital improvement projects and to refund \$86,075,000 of the HRSD Series 2012A and 2016A wastewater revenue bonds. The refunding provided a premium of \$12,009,000, resulted in a reduction of total debt service payments of \$9,642,000, created an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$6,655,000 and resulted in a deferred gain on the bond refunding of \$3,041,000, which is being amortized over 27 years.

HRSD has \$50 million outstanding in subordinate variable rate demand bonds, Series 2016B, to partially finance its capital improvement plan. The bonds bear interest in either a Weekly Period or a Long-term Period, as defined. The bonds were initially issued in a Weekly Interest Period and bear interest at a varying interest rate until, at HRSD's option, they are converted to the Long-term Period. Liquidity to pay the purchase price of the bonds that are tendered and not remarketed is provided by HRSD. Maturities of the principal and interest for these bonds are

shown in the following table as if held to maturity. The bonds are subject to optional redemption by HRSD prior to their maturity. Through June 30, 2019, the bonds have been successfully remarketed by the Remarketing Agent. The interest rate for the bonds at June 30, 2019 and 2018 was 1.52% and 1.20%, respectively. The 2019 rate was used to calculate interest maturity amounts shown below.

All bonds are secured by the revenues of HRSD and are payable over the duration of that issue. A summary of activity for the years ended June 30:

HRSD defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the fund's financial statements. At June 30, 2019, the following defeased bonds from advance refunding are still outstanding:

Defeased In	Original Issue	Amount	Redemption
2014	Series 2011 FR	\$ 9,004,000	11/1/2019
2014	Series 2012A	14,664,000	1/1/2021

2017	Series 2016A	 8,789,000	8/1/2026
		\$ 160,144,000	

HRSD's outstanding bonds contain a provision that, in the event of a default, the Bond Trustee (the Trustee) may take whatever action is necessary or desirable to collect the payments of interest installments or principal then due under the Bond Trust Agreement (the Trust Agreement), or to enforce performance, observance or compliance by the District with any covenant, condition, agreement or provision under the Trust Agreement. The Trustee may, upon the written request of the holders of not less than a majority in aggregate principal amount of the bonds then outstanding, by notice in writing to HRSD, declare the principal of all bonds then outstanding to be due and payable immediately.

#### **NOTE 10 - NET POSITION**

#### Restricted Portion of Net Position

Restricted for debt service. HRSD's Trust Agreement requires that funds be set aside for its revenue bond debt service. At June 30, 2019 and 2018, \$28,553,000 and \$27,799,000, respectively, were contained in the unrestricted net position.

#### Unrestricted Portion of Net Position

Reserved for Improvement. HRSD's Master Trust Agreement requires a reserve for improvements. There is no specific funding mechanism established by the Trust Agreement. At June 30, 2019 and 2018, \$157,000 and \$367,000, respectively, were contained in the unrestricted net position. HRSD was in compliance with all funding requirements of this reserve during the fiscal years ended June 30, 2019 and 2018.

Reserved for Construction. A reserve for the construction program is based on funds designated by HRSD's Commission for such purposes. At June 30, 2019 and 2018, \$0 and \$8,596,000, respectively, were contained in the unrestricted net position.

#### **NOTE 11 - RISK MANAGEMENT**

HRSD is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; employee dishonesty; injuries to employees; and natural disasters. HRSD purchases commercial insurance for specific types of coverage including property, liability, auto, crime, public officials and worker's compensation. There were no significant reductions in insurance coverage from the prior year. Claim settlements and judgments not covered by commercial insurance are covered by operating resources. The amount of settlements did not exceed insurance coverage for each of the past three years. Claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

HRSD has a self-insured health, dental and vision care benefits program for all employees. Certain health claims expenses paid on behalf of each employee during a single policy year are covered by excess loss insurance with a specific stop-loss limit of \$250,000. HRSD also maintains an aggregate insurance policy whereby total medical claims costs in excess of 125 percent of expected costs are subject to reimbursement. Claims processing and payments for all health care claims are made through third-party administrators. HRSD uses the information provided by the third-party administrators and a health care benefits consultant to aid in the determination of self-insurance reserves.

Changes in HRSD's claims liability for fiscal years 2018 through 2019 is as follows:

(in thousands)	sands) Beginning of Estimated							End of	
	Fis	cal Year	Claims Incurred			aims Paid	Fiscal Year		
2018	\$	3,355	\$	13,332	\$	(12,471)	\$	4,216	
2019		4,216		12,875		(12,801)		4,290	

#### **NOTE 12 – COMMITMENTS AND CONTINGENCIES**

HRSD is party to a federal consent decree with the federal and state governments (the Consent Decree), which requires HRSD to evaluate the wet weather capacity of the regional sewer system, including collection systems owned by 14 of the localities which HRSD serves in the Hampton Roads area. Based upon that evaluation, HRSD, in consultation with the localities, has developed a Regional Wet Weather Management Plan (RWWMP), which is under review by the federal and state environmental agencies for their approval. The recommended plan includes a long-term implementation schedule, identifies appropriate levels of wet weather capacity in individual areas of the region and/or on a region-wide basis, and summarizes the major projects and programs that must be implemented in order to achieve the appropriate level of regional wet weather capacity.

HRSD and the localities believe that addressing wet weather capacity issues from a regional perspective will result in the most affordable and cost-effective approach for ratepayers throughout the region. Toward that end, HRSD and the localities entered into a legally binding Memorandum of Agreement in March of 2014 (the MOA). The MOA commits HRSD to (1) develop the RWWMP in consultation with the localities, (2) fund the approved plan through a regional rate imposed on all regional ratepayers, (3) design and construct the necessary improvements, and (4) assume responsibility for wet weather capacity throughout the region in each area once the RWWMP is implemented. In exchange, the localities have agreed to (1) cooperate with HRSD, (2) facilitate the construction of and accept ownership of any improvements which HRSD may need to construct in the localities' systems, and (3) maintain the integrity of their systems to industry standards. This agreement is currently under revision. The revision will have HRSD taking responsibility for regional wet weather capacity issues upon the environmental agencies' approval of the RWWMP.

HRSD has also developed an Integrated Management Plan (IMP) and Adaptive Regional Plan (ARP) which was submitted in September 2017. The IMP and ARP include a combination of projects that will improve water quality of the Chesapeake Bay. The first project will be the Sustainable Water Initiative for Tomorrow (SWIFT), which will allow HRSD to reduce nitrogen, phosphorus and total suspended solids to the Chesapeake Bay watershed. This program is estimated to cost \$1 billion and may take approximately 10 years to implement. During this time HRSD will be investing approximately \$200 million in additional wet weather capacity-related sewer overflow controls between now and 2030. Beginning in 2028-2030 HRSD will perform flow monitoring per the ARP and modify the RWWMP as needed. After 2030, the ARP commits HRSD to submit a Final Remediation Plan which may call for full implementation of the RWWMP, a subset of priority projects from the scenario with the greatest environmental benefits, investments in emerging environmental issues including sea level rise adaptation, or some combination of these or other regional environmental priorities. While speculative at this time, those needs could cost upwards of \$1

billion over a 20-25 year period (through 2055). HRSD has submitted the IMP and ARP to the federal and state environmental agencies for approval.

The Consent Decree and MOA also contemplate that the localities' obligation to maintain the integrity of their sewer systems to industry standards was embodied in a State Administrative Order. Management currently believes that HRSD is on schedule to complete these projects.

During FY-2018 HRSD paid \$15 million for a non-revocable option to purchase a parcel of land to construct one of the SWIFT facilities. The option must be exercised no earlier than January 1, 2023 and no later than December 31, 2023. An additional payment of \$15 million, adjusted from the date of the agreement to the date of settlement by the Consumer Price Index for All Urban Consumers, will be due at that time. Failure to exercise the option will result in forfeiture of the option fee.

HRSD has a major capital improvement and expansion program funded through the issuance of debt and its own resources. At June 30, 2019, HRSD has outstanding commitments for contracts in progress of approximately \$167.167.000.

#### **NOTE 13 - FAIR VALUE MEASUREMENTS**

HRSD categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

Debt securities reported as investments are classified in Level 2 of the fair value hierarchy and are valued using the following approaches:

- U.S. Treasury securities are valued using quoted prices for identical or similar securities.
- All other investments are valued based on matrix pricing using observable data of securities with similar attributes.

In FY2019, HRSD converted all U.S. Treasury securities and other investments into Cash and Cash Equivalents. Cash and cash equivalents are not included of the fair value hierarchy and are valued using the following approaches:

- SNAP Fund money market mutual funds. HRSD's holdings of the PFM Prime Series (SNAP) fund units are valued at NAV, which is used as a practical expedient for fair value. There are no imposed redemption restrictions and the plan does not have any contractual obligations to further invest in the fund. The underlying investments of the fund are primarily short-term, high quality debt instruments including U.S. Treasuries, U.S. Agencies, U.S. Municipals, and repurchase agreements secured by U.S. Government Obligations. Underlying investments are measured at amortized cost, which approximates fair value. Underlying investments are measured at amortized cost, which approximates fair value. HRSD's total investment in SNAP was \$14,335,000 and \$67,278,000 as of June 30, 2019 and 2018, respectively.
- Local Government Investment Pool (LGIP) HRSD holdings of the Virginia LGIP fund units are valued at amortized cost based on their qualification under GASB 79 as being managed as a "2a-7 like" investment. The fund does not have any limitations or restrictions on withdrawals such as redemption notice periods, maximum transaction amounts, or liquidity fees or redemption gates. The underlying investments of the fund are primarily short-term, high quality debt instruments including U.S. Treasuries, U.S. Agencies, U.S. Municipals, and repurchase agreements secured by U.S. Government Obligations. Underlying investments are measured at amortized cost, which approximates fair value. HRSD's total investment in the LGIP was \$68,984,000 as of June 30, 2018. HRSD does not have any investments in LGIP as of June 30, 2019.
- The Virginia Investment Pool Trust Fund (the "Trust" or "VIP") is an Internal Revenue Code Section 115 governmental trust fund created under the Joint Exercise of Powers statute of the Commonwealth of Virginia to provide political subdivisions with an investment vehicle to pool their funds and to invest such funds into two or more investment portfolios under the direction and daily supervision of a professional fund manager. The Trust was established and created by the City of Chesapeake, Virginia and the City of Roanoke, Virginia (the "Founding Participants") and operates under the Trust Agreement as amended September 23, 2016. All deposits to VIP initially go into the Stable NAV Liquidity Pool, which serves both as a liquidity pool and as a

sweep account for the 1-3 Year High Quality Bond Fund. HRSD's total Investment in VIP is \$128,530,000 in the 1-3 Year High Quality Bond Fund and \$163,659,000 in the Stable NAV Liquidity Pool as of June 30, 2019.

#### HRSD OPEB Trust Investments

The HRSD OPEB Trust has investments in mutual funds, cash, and cash equivalents on deposit with its trustee, USBank. HRSD categorizes its fair value measurements within the fair value hierarchy consistent with the approach described above.

Additional information about HRSD's OPEB Plan is in Note 7.

#### **NOTE 14 - Change in Accounting Principle**

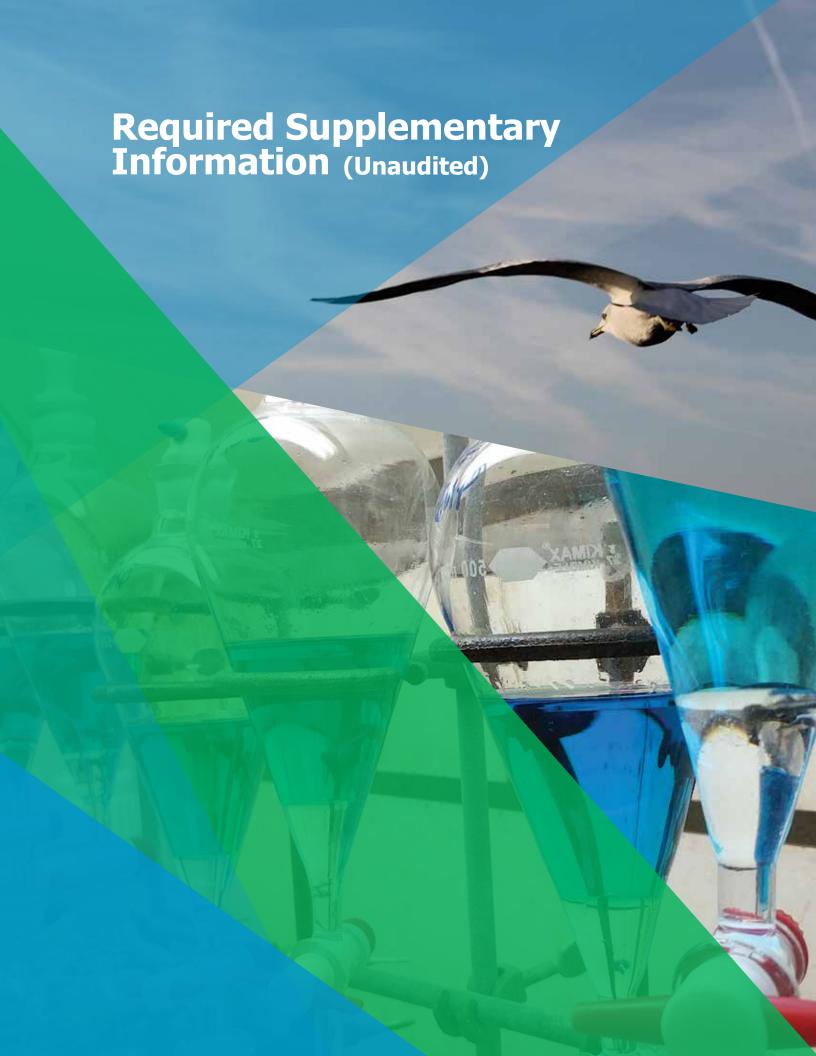

As discussed in Note 2, HRSD adopted GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period,* effective July 1, 2018. The requirements of this Statement are applied prospectively, so no adjustment to net position was required.

As discussed in Note 2, HRSD adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective July 1, 2017. HRSD implemented the provisions of GASB No. 75 in fiscal year 2018 by adjusting the July 1, 2017 net position, establishing an other postemployment benefits (OPEB) liability, recording deferred inflows and outflows of resources related to OPEB activity, and adjusting OPEB expenses in the accompanying financial statements. The following reflects the adjustment to net position as of July 1, 2017 as a result of implementing GASB Statement No. 75 in FY18:

(in thousands)	
Adjustment for net OPEB liability	\$ (20,520)
Adjustment for contributions made subsequent to the measurement date	336
Adjustment to net position at July 1, 2017	\$ (20,184)

#### NOTE 15 - Subsequent Event

On October 2, 2019, HRSD closed on \$205,675,000 Subordinate Wastewater Revenue Bonds, Refunding Series 2019A (Federally Taxable). A portion of the proceeds of the Series 2019A Bonds, together with \$66,355,000 in District funds, were applied to refund \$35,520,000 of Series 2014A Bonds, \$131,525,000 of Series 2016A Bonds, \$11,430,000 of Series 2017A Bonds and \$41,245,000 of Series 2018A Bonds. The bonds priced at par, resulting in no premium on the bond transaction, as is typical for taxable bonds.

Changes of benefit terms - There have been no actuarially material changes to the VRS benefit provisions since the prior actuarial valuation.

**Changes of assumptions** - The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the retirement system for the four-year period ended June 30, 2016:

Mortality Rates (Pre-retirement, post-retirement	Updated to a more current mortality table - RP-2014 projected
healthy, and disabled)	to 2020
	Lowered rates at older ages and changed final retirement
Retirement Rates	from 70 to 75 retirement
	Adjusted rates to better fit experience at each year age and
Withdrawal Rates	service through 9 years of service
Disability Rates	Lowered rates
Salary Scale	No change
Line of Duty Disability	Increase rate from 14% to 15%

Information pertaining to Pensions can be found in Notes 2 and 8 to the financial statements.

#### HAMPTON ROADS SANITATION DISTRICT SCHEDULE OF RHP OPEB CONTRIBUTIONS AND RELATED RATIOS FOR THE YEARS ENDED JUNE 30, 2010 THROUGH 2019

	Actuarially Determined	Contributions in Relation to the Actuarially Required	Contribution Deficiency		Employer's	Contributions as a % of Covered
Date	Contribution	Contribution	(Excess)		Covered Payroll	Payroll
2019	\$ 2,993,000	2,993,000		-	\$ 52,070,000	5.75%
2018	2,729,000	2,729,000		-	50,874,000	5.36%
2017	2,558,000	2,558,000		-	49,286,000	5.19%
2016	2,178,000	2,178,000		-	47,838,000	4.55%
2015	2,177,000	2,177,000		-	47,674,000	4.57%
2014	2,244,000	2,244,000		-	46,096,000	4.87%
2013	2,102,000	2,102,000		-	45,032,000	4.67%
2012	2,231,000	2,231,000		-	43,213,000	5.16%
2011	2,196,000	2,196,000		-	40,553,000	5.42%
2010	2,356,000	2,356,000		-	39,183,000	6.01%

#### Notes to Required Supplementary Information For the Year Ended June 30, 2019:

Actuarial cost method Amortization method	Entry age normal Level percent of pay, closed
Amortization period	An experience gain/loss base is created each year and amortized over a 15 year period
Asset valuation	Smoothed market value with phase-in, using a 5-year smoothing period
Assumed rate of inflation	2.20%
Medical cost trend:	
Pre Medicare	5.3%, stable at 5.3% after 3 years and decreasing to 3.6% after 53 years
Post Medicare	5.3%, stable at 5.3% after 3 years and decreasing to 3.4% after 53 years
Salary increase rate	2.50%
Investments rate of return	6.00%

Mortality rates:

Healthy
Pre Medicare

RP-2014 Mortality Table, Fully Generational, Projected with Scale MP-2014

5.3%, stable at 5.3% after 3 years and decreasing to 3.6% after 53 years

# HAMPTON ROADS SANITATION DISTRICT SCHEDULE OF EMPLOYER'S SHARE OF NET GLI OPEB LIABILITY AND RELATED RATIOS FOR THE MEASUREMENT DATES OF JUNE 30, 2018 AND 2017

	 2018	2017
Employer's Proportion of the Net GLI OPEB Liability	0.26214%	0.26016%
Employer's Proportionate Share of the Net GLI OPEB Liability	\$ 3,981,000	3,915,000
Employer's Covered Payroll	49,846,000	47,987,000
Employer's Proportionate Share of the Net GLI OPEB Liability as a Percentage of its Covered Payroll	7.99%	8.16%
Plan Fiduciary Net Position as a Percentage of the Total GLI OPEB	51.22%	48.86%

This schedule is intended to show information for 10 years. However, until a full ten-year trend is compiled, HRSD will present information for those years for which information is available.

In accordance with GAAP, Net Liability is reported using the measurement date, which is one year prior to the reporting date.

Unaudited - See accompanying independent auditors' report and notes to required supplementary information

## HAMPTON ROADS SANITATION DISTRICT SCHEDULE OF EMPLOYER GROUP LIFE INSURANCE CONTRIBUTIONS FOR THE YEARS ENDED JUNE 30, 2010 THROUGH 2019

Date	Contractually Required Contribution	Contributions in Relation to Contractually Required Contribution	Contribution Deficiency (Excess)	Employer's Covered Payroll	Contributions as a % of Covered Payroll
2019	\$ 267,000	\$ 267,000	-	\$ 51,890,000	0.51%
2018	259,000	259,000	-	49,846,000	0.52%
2017	250,000	250,000	-	47,987,000	0.52%
2016	246,000	223,000	23,000	46,417,000	0.53%
2015	244,000	221,000	23,000	46,082,000	0.53%
2014	240,000	217,000	23,000	45,283,000	0.53%
2013	238,000	215,000	23,000	44,839,000	0.53%
2012	183,000	117,000	66,000	41,681,000	0.44%
2011	177,000	113,000	64,000	40,252,000	0.44%
2010	139,000	78,000	61,000	28,890,000	0.48%

Notes to Required Supplementary Information For the Year Ended June 30, 2019:

Changes of benefit terms - There have been no actuarially material changes to the VRS benefit provisions

**Changes of assumptions -** The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the retirement system for the four-year period ended June 30, 2016:

Mortality Rates (Pre-retirement, post-retirement	Updated to a more current mortality table - RP-2014 projected
healthy, and disabled)	to 2020
Retirement Rates	Lowered retirement rates at older ages and extended final
	retirement age from 70 to 75.
Withdrawal Rates	Adjusted termination rates to better fit experience at each age
	and service year
Disability Rates	Lowered disability rates
Salary Scale	No change
Line of Duty Disability	Increased rate from 14 to 15%

Information pertaining to OPEB can be found in Notes 2 and 7 to the financial statements.

Unaudited - See accompanying independent auditors' report and notes to required supplementary information

#### Notes to Required Supplementary Information For the Year Ended June 30, 2019:

Changes of benefit terms - There have been no actuarially material changes to the VRS benefit provisions since the prior actuarial valuation.

**Changes of assumptions -** The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the retirement system for the four-year period ended June 30, 2016:

Mortality Rates (Pre-retirement, post-retirement	Updated to a more current mortality table - RP-2014 projected
healthy, and disabled)	to 2020
Retirement Rates	Lowered retirement rates at older ages and extended final
	retirement age from 70 to 75.
Withdrawal Rates	Adjusted termination rates to better fit experience at each age
	and service year
Disability Rates	Lowered disability rates
Salary Scale	No change
Line of Duty Disability	Increased rate from 14 to 15%

Information pertaining to OPEB can be found in Notes 2 and 7 to the financial statements.

## HAMPTON ROADS SANITATION DISTRICT STATISTICAL SECTION (UNAUDITED)

This section of HRSD's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about HRSD's overall financial health.

Contents	Page(s)
Demographic and Economic Information  This schedule offers demographic and economic indicators to help the reader understand the environment within which HRSD's financial activities take place and to help make comparisons over time and with other governments.	63
Financial Trends  These schedules contain trend information to help the reader understand how HRSD's financial performance and well-being have changed over time.	64-65
Debt Capacity  This schedule presents information to help the reader assess the affordability of HRSD's current levels of outstanding debt and HRSD's ability to issue additional debt in the future.	67
Revenue Capacity  These schedules contain information to help the reader assess the factors affecting HRSD's ability to generate revenue from rate payers.	68-69 72-74
Operating Information  These schedules contain information about the HRSD's operations and resources to help the reader understand how the HRSD's financial information relates to the services HRSD provides and the activities it performs.	70-71 75

**Sources:** Unless otherwise noted the information in these schedules is derived from the comprehensive annual financial reports and accounting records for the relevant year.

HRSD added additional service areas in the counties of Isle of Wight and Surry
 Lawnes Point was acquired during the year ended June 30, 2017.
 Lawnes Point was acquired during the year ended June 30, 2018.
 The Mathews Treatment Plant was closed in 2013. Wastewater from the area is now handled by the York River Treatment Plant.
 The Surry Plants were acquired during the year ended June 30, 2018.
 HRSD conducted evaluations of the system during the years ended June 30, 2009 and 2011 and revised the miles of pipes and the number of small community pump stations.

#### Notes:

- FY2013 HRSD implemented GASB Statement 65 effective July 1, 2012, which requires expensing bond issuance costs in the year incurred.
- FY2013 HRSD adjusted the financial records to include inventory assets.
- FY2014 HRSD implemented GASB Statements 68 and 71 effective July 1, 2014, which requires recording pension liability.
- FY2016 HRSD is showing Debt Service Coverage on both a GAAP basis and an Adjusted Cash basis to account for distributions to localities in accordance with its Amended Subordinate Trust Agreement Section 705(a) enacted in March 2016. There were no distributions in FY2019.
- FY2018 HRSD implemented GASB Statement 75 effective July 1, 2017, which requires recording net OPEB assets or liabilities and related deferred outflows and inflows of resources.
- FY2019 HRSD implemented GASB Statement 89 effective July 1, 2018, establishes accounting requirements for interest cost incurred before the end of a construction period.

#### HAMPTON ROADS SANITATION DISTRICT NOTES TO BUDGETARY COMPARISON SCHEDULE JUNE 30, 2019

#### **BUDGETARY HIGHLIGHTS**

HRSD's Commission adopts an Annual Operating Budget that contains the day-to-day operating expenses of the District. The Operating Budget as adopted for FY-2019 was \$222,547,939 and contains personnel costs, fringe benefits, material and supplies, electricity, chemicals, insurance, contractual services, debt service and other miscellaneous expenses. There were several modifications to the Operating Budget during the year to reflect changes in spending patterns. All adjustments to the Annual Budget were from encumbrances carried forward or from transfers within or among departments.

#### NOTE 1 - BUDGETARY ACCOUNTING AND CONTROL

#### **Budget Preparation**

HRSD prepares its Annual Budget under the provisions of its enabling legislation, used to establish rates, fees and other charges, and of Section 3.12 of the Master Trust Indenture, dated December 1, 1993, and the Trust Agreement, dated March 1, 2008. In accordance with those provisions, the following process is used to adopt the Annual Budget.

The process begins in late December with the issuance of the Annual Budget Instructions by the General Manager. Each department completes its Operating and Improvement Budgets by March 1 for the General Manager's review.

The HRSD Commission appoints a Finance Committee consisting of two Commissioners. The two Commissioners meet in early April to review the Budgets, which are presented by staff at the April Commission meeting. HRSD's Commission reviews these budgets at that meeting.

The final Annual Budget, which incorporates the Operating and Capital Budgets, is presented at the May Commission meeting for adoption. The Commission simultaneously adopts the budget and any resulting wastewater rate schedule. All rate adjustments must be publically advertised four consecutive weeks before they can take effect.

The HRSD Commission approves any budget amendments during the ensuing year.

The 2008 Trust Agreement requires Debt Service Coverage of 1.20 times for senior and 1.00 times for total debt based on maximum annual debt service. The 2008 Subordinate Trust Agreement was amended in 2016 to account for Consent Decree expenses related to Locality wet weather improvements that HRSD will not own and requires total debt service coverage to be 1.2 times on an adjusted cash basis. The HRSD Commission has a policy of providing senior revenue and total revenue bonded debt service coverage ratios of not less than 1.5 and 1.4 times annual debt service on an adjusted cash basis, respectively.

#### **Budget Accounting**

The Annual Budget is prepared on a basis of accounting consistent with accounting principles generally accepted in the United States of America. No provision is provided, however, for non-cash items such as depreciation and bad debt expense. The FY-2019 Annual Budget consists of two parts: an operating budget that covers day-to-day operations and a capital budget that identifies all major capital project requirements over the next ten years. All operating budget amounts lapse at year-end. The Commission annually adopts only the first year of the capital budget. HRSD's Commission separately approves all contracts that are awarded under the capital budget.
